How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. This is a County Class B road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 1.19 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Medium
Route Type(s):	Loop; Y Intersection; Braided		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Hunting
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	Within 300 feet of Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash Within 100 meters of Intermittent stream Within 100 meters of Public Water Reserve
Misc. Resources	In Erosive soil - Low potential In Erosive soil - High potential / saline soils In PFYC Class 4 - High In PFYC Class 2 - Low
Resource Issues	In, crosses Erosive soil - Moderate potential In Invasive vegetation (Halogeton; Cheatgrass; Russian thistle) In Noxious weeds (Salt cedar; Russian olive) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment
Mineral Facilities	Mining claim
	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Resource Issues	Leads to, crosses Erosive soil - High potential / saline soils Within 1/4 mile of Invasive vegetation (Halogeton; Cheatgrass; Russian thistle) Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim
	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Hunting
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Barren
Special Status Animals	In, crosses Mixed Sagebrush Shrubland In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Intermittent stream Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential Crosses Erosive soil - Low potential In Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Cheatgrass; Russian thistle) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.18 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Hunting
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren In Mixed Sagebrush Shrubland Crosses Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils In PFYC Class 4 - High
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Cheatgrass; Russian thistle) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils In PFYC Class 4 - High In Steep slopes In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Leads to Route proliferation Leads to Mine hazard

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Hunting
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim
	Uranium district

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
	Sightseeing
	Cultural / Historical Viewing

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren In Mixed Desert Saltbush In Mixed Sagebrush Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	In Wash
Misc. Resources	In Erosive soil - Moderate potential In, crosses Erosive soil - High potential / saline soils In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils In PFYC Class 2 - Low In PFYC Class 4 - High
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Memo(s): Portions of this route were designated as closed in previous management efforts.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.07 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV

	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - Low potential In PFYC Class 4 - High
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) In Noxious weeds (Salt cedar) Leads to Route proliferation

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.23 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 4 - High In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Noxious weeds (Salt cedar) Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/1/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	NO
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Mineral Facilities	Mineral materials sales site

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	Within 300 feet of Maguire's daisy (<i>Erigeron maguirei</i>)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	Within 100 meters of Wash Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Low potential In PFYC Class 2 - Low

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/6/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Facilitator(s): Cam Gale

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
Mineral Facilities	AML site

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High In Erosive soil - High potential / saline soils In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. By providing a designated route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Length: 0.2 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	Within 300 feet of Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils In PFYC Class 2 - Low

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
Special Status Plants	Within 300 feet of Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low Crosses Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Swasey's Cabin/Reds Canyon Route Network System. The main routes considered critical for route connectivity in this area are: SS2714, SS4001, SS4002, SS4003, SS4004, SS4005, SS4006, SS4026, SS4056, SS4059, SS4060, SS4061, SS4175, SS4194, SS4224, SS4449, SS4450, SS4498, SS4499.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland In, crosses Mixed Sagebrush Shrubland Crosses Pinyon-Juniper Woodland In, crosses Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash Within 100 meters of Perennial stream Within 100 meters of Riparian Crosses Public Water Reserve
Misc. Resources	In, crosses Erosive soil - Moderate potential In PFYC Class 2 - Low In, crosses Erosive soil - High potential / saline soils In Erosive soil - Low potential In PFYC Class 4 - High
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) In, Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.16 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Parking Area - Undeveloped
	Boat Ramp
Activities	Vehicle Exploring
	Camping
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	River Rafting/Floating
	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland In Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Perennial stream Within 100 meters of Riparian
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) In, leads to, Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this existing route, which provides access to the river, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this existing route, which provides access to the river, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this existing route, which provides access to the river, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland Crosses Mixed Sagebrush Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Riparian
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) In, Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. The route crosses or is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4194 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland Crosses Pinyon-Juniper Woodland Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Riparian Within 100 meters of Perennial stream
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High In Erosive soil - Low potential Crosses Erosive soil - High potential / saline soils
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) In, Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation. The route is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.52 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Mixed Sagebrush Shrubland In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Leads to Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Leads to Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
Special Status Plants	Within 300 feet of Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Riparian Within 100 meters of Perennial stream
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High In Erosive soil - High potential / saline soils In, crosses Steep slopes In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. The route crosses or is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
	Cultural / Historical Viewing

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
Special Status Plants	Within 300 feet of Maguire's daisy (<i>Erigeron maguirei</i>)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High In Erosive soil - High potential / saline soils In PFYC Class 2 - Low Within 50 feet of Steep slopes

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	NO
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
Special Status Plants	Within 300 feet of Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.07 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring Photography Cultural / Historical Viewing
Modes of Transportation	UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In PFYC Class 4 - High
Resource Issues	In, Within 50 feet of Steep slopes In Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to historic mine features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	NO
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In PFYC Class 4 - High
Resource Issues	In Steep slopes In Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)	
	<p><u>Area Designation:</u> Limited</p> <p><u>Designation per 43 CFR § 8342.1:</u> OPEN This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.</p>
	<p><u>Memo(s):</u> Portions of this route are not designated in the RMP.</p>

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In PFYC Class 4 - High
Resource Issues	In Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.08 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4204 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In PFYC Class 4 - High
Resource Issues	In Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Boat Ramp
	Parking Area - Undeveloped

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland Crosses Mixed Sagebrush Shrubland In Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses, Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In PFYC Class 4 - High In Erosive soil - Low potential
Resource Issues	In Invasive vegetation (Halogeton; Russian thistle) Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Boat Ramp Parking Area - Undeveloped
Activities	Camping Vehicle Exploring Photography Cultural / Historical Viewing River Rafting/Floating
Modes of Transportation	UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial Crosses Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	In Wash Within 100 meters of Perennial stream
Misc. Resources	Crosses Riparian In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	In Invasive vegetation (Halogeton; Russian thistle) Leads to, Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. The route crosses or is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4175 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential In PFYC Class 4 - High
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.3 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Boat Ramp Parking Area - Undeveloped
Activities	Camping Vehicle Exploring Photography River Rafting/Floating
Modes of Transportation	UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
	In, crosses Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S)
	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
	In Spotted bat modeled habitat (S)
	In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat
	In Migratory bird high-value habitat
	Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II
	In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area
	In San Rafael Swell Recreation Area
	In WHB Herd Area
	In WHB Herd Management Area
	In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Perennial stream
	Within 100 meters of Riparian
Misc. Resources	In PFYC Class 2 - Low
	In Erosive soil - Low potential
	In PFYC Class 4 - High
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)
	In, leads to, Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. The route is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to the river, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Biomes	In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Misc. Resources	In PFYC Class 4 - High In Erosive soil - Moderate potential In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

Initial Evaluation Date: 7/14/2020

Evaluators: Jerrad Goodell , Aquatic Ecologist Natalie Fewings , Archaeologist Veronica Kratman , Realty Specialist Ann Glubczynski , Environmental Planning Coordinator Myron Jeffs , Outdoor Recreation Specialist Rebecca Anderson , Geologist Scott Bartlett , Resource Specialist	Kegen Benson , Biologist Michael Knight , GIS Specialist Michael Knight , GIS Specialist Stephanie Bauer , Range Specialist David Halverson , Legal Counsel Jake Garfield , Policy Analyst

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.17 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
NO	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
YES	
Route SS4175 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	In Wash
Misc. Resources	In PFYC Class 4 - High In Erosive soil - Moderate potential In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.27 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	In Wash In Intermittent stream
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) In Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. The route frequently crosses a stream. Stream crossings destabilize stream banks and channels resulting in greater erosion and sedimentation during flood flow. Crossings of perennial streams have immediate impacts to water quality with each vehicle crossing.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. The route frequently crosses a stream. Stream crossings destabilize stream banks and channels resulting in greater erosion and sedimentation during flood flow. Crossings of perennial streams have immediate impacts to water quality with each vehicle crossing.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
Jurisdictional Access	State Lands or Park

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Boat Ramp
Activities	Vehicle Exploring
	Cultural / Historical Viewing
	River Rafting/Floating
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial Crosses Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	In Wash Leads to Perennial stream Within 100 meters of Intermittent stream Within 100 meters of Riparian
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle) In, leads to Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By restricting motorized access to the minimum necessary for administrative purposes, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Limiting motorized access on this route would minimize potential for impacts to w

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.1 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur; Y Intersection		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush In Mixed Sagebrush Shrubland In Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	In Wash Within 100 meters of Perennial stream Within 100 meters of Riparian
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	In, leads to, crosses Noxious weeds (Salt cedar; Russian olive) Within 1/4 mile of Invasive vegetation (Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area
Water Resources	In ACEC - Area of Critical Environmental Concern Crosses Intermittent stream Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential Crosses Erosive soil - Moderate potential In PFYC Class 4 - High

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to an historic feature, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to an historic feature, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash Within 100 meters of Perennial stream Within 100 meters of Intermittent stream Within 100 meters of Riparian
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential In PFYC Class 4 - High
Resource Issues	Leads to Noxious weeds (Russian olive; Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 0.65 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector; Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash In Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In PFYC Class 4 - High
Resource Issues	Within 1/4 mile of Noxious weeds (Russian olive; Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial Crosses Mixed Sagebrush Shrubland In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In PFYC Class 4 - High Crosses Erosive soil - Moderate potential
Resource Issues	Within 1/4 mile of Noxious weeds (Russian olive; Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA	Route Name:	CoB 1019; Red Canyon
Management Zone:	Swaseys Cabin/Reds Canyon Route Network Geographic Area		
Length: 3.24 mi.	Width: Graded Track	Class: Wilderness Inventory Road	Use Level: High
Route Type(s):	Connector		
Surface:	Bladed	Maintained:	Regularly by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class B. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment
	Cattleguard
	Pond/Dam/Reservoir
	Allotment Fence

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Vista Parking Area - Undeveloped
Activities	Vehicle Exploring Camping Hunting Photography Sightseeing Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive UTV ATV Motorcycle 2WD vehicle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Swasey's Cabin/Reds Canyon Route Network System. The main routes considered critical for route connectivity in this area are: SS2714, SS4001, SS4002, SS4003, SS4004, SS4005, SS4006, SS4026, SS4056, SS4059, SS4060, SS4061, SS4175, SS4194, SS4224, SS4449, SS4450, SS4498, SS4499.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial Crosses Mixed Sagebrush Shrubland In, crosses Barren Crosses Pinyon-Juniper Woodland In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) Crosses Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - Moderate potential In Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In Fugitive dust - High potential
Resource Issues	Within 1/4 mile of Noxious weeds (Salt cedar) Crosses, Within 1/4 mile of Invasive vegetation (Cheatgrass; Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class B road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
NO	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Swasey's Cabin/Reds Canyon Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) Crosses Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area Within 1/4 Mile of Statutory Wilderness
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In Fugitive dust - High potential
Resource Issues	Within 1/4 mile of Noxious weeds (Salt cedar) Within 1/4 mile of Invasive vegetation (Cheatgrass; Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	R.S. 2477 claim ROW - Other (Airstrip) Water Rights
Range Facilities	Active Allotment Cattleguard Pond/Dam/Reservoir Allotment Fence Corral Gate Mineral Supplement Location Monitoring Site Water Haul Site
Mineral Facilities	Free use pit

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Vista Parking Area - Undeveloped Staging Area
Activities	Vehicle Exploring Camping Hunting Photography Sightseeing Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive UTV ATV Motorcycle 2WD vehicle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Barren In, crosses Mixed Sagebrush Shrubland In, crosses Pinyon-Juniper Woodland In, crosses Mixed Desert Saltbush In, crosses Other - Wash, Intermittent, Perennial In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Leads to, Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat In, Within 1/4 mile of Pronghorn year-long crucial habitat Leads to, Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character In VRM Class II - Retain existing character In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Fugitive dust - High potential In, crosses Erosive soil - Moderate potential In, crosses Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In PFYC Class 3 - Moderate
Resource Issues	Within 1/4 mile of Noxious weeds (Salt cedar) Within 1/4 mile of Invasive vegetation (Cheatgrass; Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class B road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to historic mine features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Derek Givens

Evaluators: Michael Knight , GIS Specialist Kegen Benson , Biologist Veronica Kratman , Realty Specialist Jim Jennings , Public Lands Administrator Jason Anderson , GIS Specialist Myron Jeffs , Outdoor Recreation Specialist Adam Robison , New User	Jerrad Goodell , Aquatic Ecologist Natalie Fewings , Archaeologist Stephanie Bauer , Range Specialist Rebecca Anderson , Geologist David Halverson , Legal Counsel Jaydon Mead , Recreation Technician
--	---

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.89 mi.	Width: Graded Track	Class: Wilderness Inventory Road	Use Level: High
Route Type(s):	Connector		
Surface:	Bladed		
Origin:	None identified by IDT	Maintained:	Regularly by County
Jurisdictions:	BLM; State Land	Constructed:	None identified by IDT

Additional Information: County Class B. Temple Jct/Hidden Splendor Rd. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	R.S. 2477 claim
	ROW - Other (Airstrip)
	Water Rights
Range Facilities	Active Allotment
	Cattleguard
	Pond/Dam/Reservoir
	Allotment Fence
	Corral
	Gate
	Mineral Supplement Location
	Monitoring Site
	Water Haul Site
Mineral Facilities	Free use pit

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Vista
	Parking Area - Undeveloped
	Staging Area
Activities	Vehicle Exploring
	Camping
	Hunting
	Photography
	Sightseeing
	Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle
	2WD vehicle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Barren In, crosses Mixed Sagebrush Shrubland In, crosses Pinyon-Juniper Woodland In, crosses Mixed Desert Saltbush In, crosses Other - Wash, Intermittent, Perennial In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Leads to, Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat In, Within 1/4 mile of Pronghorn year-long crucial habitat Leads to, Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character In VRM Class II - Retain existing character In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In WHB Herd Area In WHB Herd Management Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Fugitive dust - High potential In, crosses Erosive soil - Moderate potential In, crosses Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In PFYC Class 3 - Moderate
Resource Issues	Within 1/4 mile of Noxious weeds (Salt cedar) Within 1/4 mile of Invasive vegetation (Cheatgrass; Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: XXXX

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Natural Rehab

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Aircraft, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: XXXX

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Aircraft, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: XXXX

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.09 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Sagebrush Shrubland In Other - Wash, Intermittent, Perennial In Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area Within 1/4 Mile of Statutory Wilderness In San Rafael Swell Recreation Area
Misc. Resources	In Natural Area In PFYC Class 2 - Low In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils
Resource Issues	Within 150 feet of Cryptobiotic soil (End of road) Within 1/4 mile of Invasive vegetation (Cheatgrass; Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

---	---

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.13 mi.	Width: Dual Track	Class: Wilderness Inventory	Use Level: Low Road
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Pond/Dam/Reservoir
	Water Haul Site

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
	Sightseeing
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In, crosses Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area Within 1/4 Mile of Statutory Wilderness In San Rafael Swell Recreation Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In Erosive soil - Low potential
Resource Issues	In, leads to Invasive vegetation (Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.15 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment
	Pond/Dam/Reservoir
	Water Haul Site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
	Sightseeing
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area Within 1/4 Mile of Statutory Wilderness In San Rafael Swell Recreation Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In Erosive soil - Low potential
Resource Issues	In, leads to Invasive vegetation (Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By restricting motorized access to the minimum necessary for administrative purposes, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In Erosive soil - Low potential
Resource Issues	In, leads to Invasive vegetation (Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.23 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur; Loop		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	2WD vehicle

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Mixed Sagebrush Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In Erosive soil - Low potential
Resource Issues	In, leads to Invasive vegetation (Russian thistle; Halogeton; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.16 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
	Water Haul Site
Mineral Facilities	Free use pit

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	Leads to, Within 1/4 mile of Invasive vegetation (Russian thistle; Halogeton; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
	Water Haul Site
	Corral

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Mixed Sagebrush Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential Leads to Erosive soil - High potential / saline soils
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Russian thistle; Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By restricting motorized access to the minimum necessary for administrative purposes, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA	Route Name:	Co D 3917; Baptist Draw
Management Zone:	Behind the Reef Route Network Geographic Area	Class:	Wilderness Inventory Road
Length: 3.31 mi.	Width: Dual Track	Use Level:	Medium
Route Type(s):	Connector; Spur	Maintained:	Minimally by County
Surface:	None identified by IDT	Constructed:	None identified by IDT
Origin:	None identified by IDT		
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment
	Pond/Dam/Reservoir
	Monitoring Site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Vista
Activities	Vehicle Exploring
	Camping
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
	Photography
	Cultural / Historical Viewing

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In, crosses Erosive soil - Moderate potential In, crosses Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Vista
Activities	Vehicle Exploring
	Camping
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
	Photography
	Cultural / Historical Viewing

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland In, crosses Barren Crosses Mixed Blackbrush/Sand Shrubland In Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	Within 1/4 mile of Desert bighorn sheep crucial year-long habitat Within 1/4 mile of Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In, leads to, crosses Erosive soil - High potential / saline soils Crosses Erosive soil - Low potential Leads to Steep slopes

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 2.98 mi.	Width: Dual Track	Class: Wilderness Inventory Road	Use Level: Medium
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	R.S. 2477 claim
	Water Rights
Range Facilities	Active Allotment
	Pond/Dam/Reservoir
	Other (Trap)

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
	OHV Destination Route
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
	Photography
	Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland In, crosses Pinyon-Juniper Woodland In Other - Wash, Intermittent, Perennial Crosses Mixed Blackbrush/Sand Shrubland Crosses Mixed Mountain Forest/Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In, Within 1/4 mile of Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - High potential / saline soils In, crosses Erosive soil - Low potential In, crosses Erosive soil - Moderate potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

--	--

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.06 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment
	Pond/Dam/Reservoir

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By restricting motorized access to the minimum necessary for administrative purposes, potential impacts on T&E species and their habitats would be reduced. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By restricting motorized access to the minimum necessary for administrative purposes, potential impacts on T&E species and their habitats would be reduced. By closing the route to OHV use, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Range Facilities	Pond/Dam/Reservoir Monitoring Site

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring Camping
Modes of Transportation	UTV ATV Motorcycle Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential Crosses Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 10.22 mi.	Width: Dual Track	Class: Wilderness Inventory Road	Use Level: Medium
Route Type(s):	Connector; Braided		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	R.S. 2477 claim
	Water Rights
Range Facilities	Active Allotment
	Pond/Dam/Reservoir

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
	OHV Destination Route
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
	Photography
	Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland In, crosses Pinyon-Juniper Woodland In, crosses Barren In, crosses Other - Wash, Intermittent, Perennial In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	Crosses Maguire's daisy (<i>Erigeron maguirei</i>)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In PFYC Class 3 - Moderate In PFYC Class 4 - High In, crosses Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential
Resource Issues	Crosses, Within 50 feet of Steep slopes Within 1/4 mile of Invasive vegetation (<i>Halogeton</i>)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route: <ul style="list-style-type: none"> • either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency? 	NO
<ul style="list-style-type: none"> • provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility? 	YES
<ul style="list-style-type: none"> • provide a principal means of connectivity within a Travel Management Area or Management Zone? 	NO
<ul style="list-style-type: none"> • exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset? 	YES
<ul style="list-style-type: none"> • provide an important linkage between Travel Management Areas or Management Zones? 	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact: <ul style="list-style-type: none"> • State or Federal special status species or their habitat? 	YES
<ul style="list-style-type: none"> • cultural or any other specially-protected resources or objects identified in Agency planning documents? 	YES
<ul style="list-style-type: none"> • any special area designations, e.g., National Monuments? 	YES
<ul style="list-style-type: none"> • any other resources of concern? 	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
	OHV Destination Route
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
	Photography
	Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In, crosses Barren Crosses Mixed Blackbrush/Sand Shrubland Crosses Mixed Sagebrush Shrubland Crosses Pinyon-Juniper Woodland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	Crosses Maguire's daisy (Erigeron maguirei)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential In PFYC Class 3 - Moderate In Erosive soil - Low potential Crosses, Within 50 feet of Steep slopes

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. The route crosses or is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Mixed Sagebrush Shrubland In Other - Wash, Intermittent, Perennial In Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Maguire's daisy (<i>Erigeron maguirei</i>)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Water Resources	In Intermittent stream Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low Crosses Erosive soil - Low potential In Erosive soil - Moderate potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 6.94 mi.	Width: Dual Track	Class: Wilderness Inventory Road	Use Level: Medium
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Vista
Activities	Vehicle Exploring Camping
Modes of Transportation	OHV Destination Route UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting Photography Cultural / Historical Viewing

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland In, crosses Pinyon-Juniper Woodland In Barren In, crosses Other - Wash, Intermittent, Perennial In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) Leads to Southwestern willow flycatcher potential habitat (E)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat Leads to, Within 1/4 mile of Pronghorn year-long crucial habitat
Special Status Plants	Crosses Maguire's daisy (<i>Erigeron maguirei</i>)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Water Resources	In Intermittent stream Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - Moderate potential In PFYC Class 3 - Moderate In PFYC Class 4 - High In, crosses Erosive soil - High potential / saline soils In, crosses Erosive soil - Low potential Crosses, Within 50 feet of Steep slopes

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.12 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4226 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping Vehicle Exploring
Modes of Transportation	UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting Photography
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In, crosses Mixed Sagebrush Shrubland In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential Crosses Erosive soil - Low potential

***Note:** Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
	Photography
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Mixed Sagebrush Shrubland Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Misc. Resources	In Natural Area In PFYC Class 2 - Low In, crosses Erosive soil - High potential / saline soils Crosses Erosive soil - Low potential In Erosive soil - Moderate potential In Cryptobiotic soil

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.22 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4226 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential In, crosses Erosive soil - High potential / saline soils Within 150 feet of Cryptobiotic soil

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

Initial Evaluation Date: 7/14/2020

Evaluators: **Jerrad Goodell**, Aquatic Ecologist

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.12 mi.	Width: Dual Track	Class: Wilderness Inventory Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren Crosses Mixed Blackbrush/Sand Shrubland Crosses Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Water Resources	Within 100 meters of Wash Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Sagebrush Shrubland In Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route: <ul style="list-style-type: none"> • either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency? • provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility? • provide a principal means of connectivity within a Travel Management Area or Management Zone? • exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset? • provide an important linkage between Travel Management Areas or Management Zones? 	YES YES NO YES NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact: <ul style="list-style-type: none"> • State or Federal special status species or their habitat? • cultural or any other specially-protected resources or objects identified in Agency planning documents? • any special area designations, e.g., National Monuments? • any other resources of concern? 	YES YES YES YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	ROW - Other (Airstrip)
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Other (Airstrip, frequently used)
Activities	Camping
Modes of Transportation	UTV ATV Motorcycle Stock 4 Wheel Drive Ultra-Lite Aircraft

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Vehicle Exploring Photography
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Water Resources	Within 1/4 Mile of Statutory Wilderness Within 100 meters of Perennial stream Within 100 meters of Riparian Within 100 meters of Wash Within 100 meters of Floodplain
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils Crosses Erosive soil - Moderate potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Aircraft, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. By limiting access on this route to only aircraft use, the potential for impacts to documented resources would be reduced due to lower traffic volume. By restricting public access to aircraft, the potential for impacting special status species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Limiting this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Aircraft, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. By limiting access on this route to only aircraft use, the potential for impacts to documented resources would be reduced due to lower traffic volume. By restricting public access to aircraft, the potential for impacting special status species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Limiting this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to historic mining features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Vehicle Exploring
	Photography
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat Within 100 meters of Fisheries (sport & native)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Water Resources	Within 100 meters of Perennial stream Within 100 meters of Riparian Within 100 meters of Wash Within 100 meters of Floodplain
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Aircraft, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. By limiting access on this route to only aircraft use, the potential for impacts to documented resources would be reduced due to lower traffic volume. By restricting public access to aircraft, the potential for impacting special status species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Limiting this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Aircraft, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. By limiting access on this route to only aircraft use, the potential for impacts to documented resources would be reduced due to lower traffic volume. By restricting public access to aircraft, the potential for impacting special status species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Limiting this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to historic mining features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Boat Ramp (Takeout) Parking Area - Undeveloped
Activities	Camping River Rafting/Floating
Modes of Transportation	UTV ATV Motorcycle Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Vehicle Exploring Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	Within 100 meters of Fisheries (sport & native) In Desert bighorn sheep crucial year-long habitat In Migratory bird high-value habitat
VRM/RSC	In VRM Class I - Preserve existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area
Water Resources	Within 1/4 Mile of Statutory Wilderness Within 100 meters of Perennial stream Within 100 meters of Riparian Within 100 meters of Wash Within 100 meters of Floodplain
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential
Resource Issues	In Invasive vegetation (Halogeton; Russian thistle) Leads to Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to the river, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to the river, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to the river, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Parking Area - Undeveloped Vista
Activities	Camping Vehicle Exploring Photography Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In VRM Class I - Preserve existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils Crosses Erosive soil - Moderate potential
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)	
	<p><u>Area Designation:</u> Limited</p> <p><u>Designation per 43 CFR § 8342.1:</u> OPEN This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.</p>
	<p><u>Memo(s):</u> Portions of this route were designated as closed in previous management efforts.</p>

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

Initial Evaluation Date: 7/14/2020

Evaluators: Jerrad Goodell , Aquatic Ecologist Natalie Fewings , Archaeologist Veronica Kratman , Realty Specialist Ann Glubczynski , Environmental Planning Coordinator Myron Jeffs , Outdoor Recreation Specialist Jake Garfield , Policy Analyst Kris Carambelas , Archaeologist	Kegen Benson , Biologist Michael Knight , GIS Specialist Michael Knight , GIS Specialist Stephanie Bauer , Range Specialist Rebecca Anderson , Geologist Scott Bartlett , Resource Specialist

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.03 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
	Cultural / Historical Viewing

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In VRM Class I - Preserve existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils Within 50 feet of Steep slopes
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than applica

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.07 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur; Loop		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Parking Area - Undeveloped
	Vista
Activities	Cultural / Historical Viewing
	Camping
	Vehicle Exploring
	Photography
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In VRM Class I - Preserve existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils
Resource Issues	In, Within 1/4 mile of Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	NO
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In VRM Class I - Preserve existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils Crosses, Within 50 feet of Steep slopes
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton) Leads to Mine hazard

***Note:** Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Closing the route to OHV use would promote of safety of all users of public land by eliminating access to an area with known hazards where mitigation is not feasible.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Closing the route to OHV use would promote of safety of all users of public land by eliminating access to an area with known hazards where mitigation is not feasible.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Facilitator(s): Cam Gale

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.11 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	NO
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4226 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In VRM Class I - Preserve existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern Leads to Statutory Wilderness
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

TMA: San Rafael Swell TMA Management Zone: Behind the Reef Route Network Geographic Area Length: 0.82 mi.	Width: Dual Track Class: Wilderness Inventory Road Use Level: Medium
Route Type(s): Connector Surface: None identified by IDT Origin: None identified by IDT Jurisdictions: BLM; State Land	Maintained: Minimally by County Constructed: None identified by IDT

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Range Facilities	Active Allotment
	Pond/Dam/Reservoir

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Parking Area - Undeveloped
Activities	Camping
	Vehicle Exploring
	OHV Destination Route
	Hiking
	Canyoneering
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	2WD vehicle

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush
	In, crosses Other - Wash, Intermittent, Perennial
Special Status Animals	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
	In Spotted bat modeled habitat (S)
	In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In VRM Class I - Preserve existing character
	In Inventory Class II
	In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area
	In WHB Herd Area
	In WHB Herd Management Area
	In San Rafael Swell Recreation Area
	In ACEC - Area of Critical Environmental Concern
	Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash
	Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low
	In, crosses Erosive soil - Moderate potential
	In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 3.17 mi.	Width: ATV Track	Class: Wilderness Inventory Road	Use Level: Medium
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	Water Rights
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	OHV Destination Route
	Hiking
	Canyoneering
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Barren In, crosses Mixed Sagebrush Shrubland In, crosses Mixed Blackbrush/Sand Shrubland In Other - Wash, Intermittent, Perennial In, crosses Pinyon-Juniper Woodland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) Crosses, Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Crosses, Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash In Intermittent stream Within 200 meters of Spring
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - Moderate potential In, crosses Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils Within 50 feet of Steep slopes In PFYC Class 4 - High
Resource Issues	Leads to Mine hazard

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

LIMITED

This route was designated limited as part of a planning and NEPA process. Public use of this route is limited to transportation type. The public may use this route by Less than 52" vehicle width, year-round.

Alternative B

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 52" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above: By limiting vehicle width to 52" wide or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by Less than 66" vehicle width, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. By limiting this route to 66" or less, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced. Designating this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing undue and unnecessary soil erosion, habitat disruption and vegetative damage. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Limiting this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	OHV Destination Route
	Hiking
	Canyoneering
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In, crosses Pinyon-Juniper Woodland In, crosses Other - Wash, Intermittent, Perennial In, crosses Mixed Blackbrush/Sand Shrubland In Barren
Special Status Animals	Crosses Mixed Sagebrush Shrubland In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) Crosses, Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Crosses, Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In, crosses Erosive soil - Low potential Within 50 feet of Steep slopes In PFYC Class 4 - High In, crosses Erosive soil - High potential / saline soils
Resource Issues	Leads to Mine hazard

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA	Route Name:	CoB 1016; Behind the Reef
Management Zone:	Behind the Reef Route Network Geographic Area	Class:	Wilderness Inventory
Length: 6.7 mi.	Width: Multi Lane	Use Level:	High Road
Route Type(s):	Connector	Maintained:	Regularly by County, BLM
Surface:	Bladed	Constructed:	None identified by IDT
Origin:	None identified by IDT		
Jurisdictions:	BLM		

Additional Information: County Class B.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	ROW - Road
	Water Rights
	R.S. 2477 claim
	Commercial Rec Permit
Range Facilities	Active Allotment
Mineral Facilities	AML site
	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Trailhead
Activities	Camping Vehicle Exploring OHV Destination Route Photography Hiking Canyoneering Cultural / Historical Viewing Sightseeing Geocaching
Modes of Transportation	UTV ATV Motorcycle Stock 4 Wheel Drive 2WD vehicle Bicycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland In Mixed Sagebrush Shrubland In, crosses Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) Crosses, Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Desert bighorn sheep crucial year-long habitat Crosses, Within 1800 feet of Migratory bird high-value habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character In Inventory Class I In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Water Resources	Crosses Wash Crosses Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential Within 50 feet of Steep slopes
Resource Issues	Leads to Mine hazard

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class B road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Commercial Rec Permit
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Mixed Sagebrush Shrubland Crosses Pinyon-Juniper Woodland In, crosses Barren Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Water Resources	In Natural Area
Misc. Resources	Crosses Wash In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential Crosses Erosive soil - Low potential Within 50 feet of Steep slopes

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Commercial Rec Permit
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Mixed Sagebrush Shrubland Crosses Pinyon-Juniper Woodland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area
Water Resources	Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential Leads to, Within 50 feet of Steep slopes
Resource Issues	In Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping Vehicle Exploring Photography
Modes of Transportation	UTV ATV Motorcycle Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Pinyon-Juniper Woodland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In Erosive soil - Moderate potential Within 50 feet of Steep slopes
Resource Issues	In Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.16 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Sagebrush Shrubland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential Crosses Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. By closing the route to OHV use, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Type	Description
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial In, crosses Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area
Water Resources	Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - Moderate potential In Erosive soil - High potential / saline soils In Erosive soil - Low potential Within 50 feet of Steep slopes (Upslope)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Hiking
	Geocaching
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In, crosses Barren In Mixed Sagebrush Shrubland In, crosses Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area
Water Resources	Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In, crosses Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Hiking
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Natural Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Hiking
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class III - Partially Retain existing char. In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In, Within 1/4 Mile of Natural Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential Within 50 feet of Steep slopes (Upslope)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. By closing the route to OHV use, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hiking
	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush Crosses Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash In Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential In Erosive soil - Low potential In Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 1 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	Mining claim

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hiking
	Photography
	Camping
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Other - Wash, Intermittent, Perennial Crosses Mixed Sagebrush Shrubland In Mixed Desert Saltbush In Barren In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area In Natural Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Water Resources	In Wash In Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - Moderate potential In Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. By closing the route to OHV use, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 1.38 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Medium
Route Type(s):	Connector; Spur; Braided		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Trailhead
Activities	Camping
	Vehicle Exploring
	Photography
	Sightseeing
	Cultural / Historical Viewing
	Hiking
	Geocaching
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Other - Wash, Intermittent, Perennial Crosses Pinyon-Juniper Woodland In, crosses Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In Inventory Class I In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Natural Area
Water Resources	In Intermittent stream Within 100 meters of Wash Within 200 meters of Spring
Misc. Resources	In PFYC Class 2 - Low In, crosses Erosive soil - Low potential In, crosses Erosive soil - Moderate potential Crosses Erosive soil - High potential / saline soils In PFYC Class 4 - High

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Memo(s): Portions of this route were designated as closed in previous management efforts.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.04 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Cultural / Historical Viewing
	Hiking
	Camping
	Vehicle Exploring
	Photography
	Sightseeing
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash Within 200 meters of Spring Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4282 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description

Special Management Areas	In SRMA - Special Recreation Management Area In WHB Herd Area In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash Within 200 meters of Spring Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class III - Partially Retain existing char.
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness In ACEC - Area of Critical Environmental Concern In SRMA - Special Recreation Management Area In WHB Herd Area
Water Resources	Within 100 meters of Wash Within 200 meters of Spring Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In PFYC Class 4 - High

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.09 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Medium
Route Type(s):	Loop		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Hiking
	Camping
	Vehicle Exploring
	Sightseeing
	Cultural / Historical Viewing
	Geocaching
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Barren
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness In ACEC - Area of Critical Environmental Concern In SRMA - Special Recreation Management Area In WHB Herd Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Type	Description
Activities	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Temple Mountain Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial
Special Status Animals	In Spotted bat modeled habitat (S)
	In Fringed myotis modeled habitat (S)
	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II
	In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area
	In San Rafael Swell Recreation Area
	Within 1/4 Mile of Statutory Wilderness
	In ACEC - Area of Critical Environmental Concern
	In SRMA - Special Recreation Management Area
	In WHB Herd Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Moderate potential
	In PFYC Class 4 - High

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	YES
Route SS4288 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Hiking
	Camping
	Vehicle Exploring
	Sightseeing
	Cultural / Historical Viewing
	Geocaching
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Pinyon-Juniper Woodland In Barren
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area Within 1/4 Mile of Statutory Wilderness In ACEC - Area of Critical Environmental Concern In SRMA - Special Recreation Management Area In WHB Herd Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 4 - High

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.03 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Hiking
	Camping
	Vehicle Exploring
	Sightseeing
	Cultural / Historical Viewing
	Geocaching
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial
Special Status Animals	In Spotted bat modeled habitat (S)
	In Fringed myotis modeled habitat (S)
	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II
	In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area
	In San Rafael Swell Recreation Area
	Within 1/4 Mile of Statutory Wilderness
	In ACEC - Area of Critical Environmental Concern
	In SRMA - Special Recreation Management Area
	In WHB Herd Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Moderate potential
	In PFYC Class 4 - High

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/26/2023 Jayden Mead, Daniel Kauffman, Stephanie Howard, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Spotted bat modeled habitat (S)
	In Fringed myotis modeled habitat (S)
	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II
	In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area
	In San Rafael Swell Recreation Area
	In SRMA - Special Recreation Management Area
	In WHB Herd Area
	In Natural Area
	Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Misc. Resources	In Erosive soil - Moderate potential
	In Erosive soil - Low potential
	In PFYC Class 2 - Low

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

--	---

TMA:	San Rafael Swell TMA	Route Name:	BLM 850
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 1.47 mi.	Width: Dual Track	Class:	Primitive Road
Route Type(s):	Spur	Use Level:	Medium
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	OHV Destination Route
	Geocaching
	Cultural / Historical Viewing
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Hiking
	Bicycling / Mountain Biking
Modes of Transportation	Bicycle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In Natural Area Within 1/4 Mile of ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Within 100 meters of Wash
Misc. Resources	In, crosses Erosive soil - Moderate potential In PFYC Class 2 - Low In, crosses Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Rat95: Allowing continued use of this existing route, which provides access to historic mining features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to historic mining features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.44 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Medium
Route Type(s):	Connector; Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Geocaching
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Hiking

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland In Other - Wash, Intermittent, Perennial
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of Natural Area
Water Resources	Crosses Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Geocaching
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Hiking
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - High potential / saline soils In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Geocaching
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Hiking
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland In Mixed Desert Saltbush In Pinyon-Juniper Woodland
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - High potential / saline soils
Resource Issues	Leads to Mine hazard

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Geocaching
	Cultural / Historical Viewing
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Hiking

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Spotted bat modeled habitat (S)
	In Fringed myotis modeled habitat (S)
	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II
	In VRM Class I - Preserve existing character
Special Management Areas	Within 1/4 Mile of Statutory Wilderness
	In WHB Herd Management Area
	In San Rafael Swell Recreation Area
	In SRMA - Special Recreation Management Area
	In WHB Herd Area
	In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential
	In PFYC Class 2 - Low
	In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Commercial Rec Permit
	Water Rights
Range Facilities	Active Allotment
Mineral Facilities	AML site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses (*main route used to access the destinations or use activities listed*)

Type	Description
Recreation Destination	Campsite - Undeveloped Trailhead
Activities	Camping Vehicle Exploring Photography Hiking Geocaching Sightseeing Canyoneering
Modes of Transportation	UTV ATV Motorcycle Stock 4 Wheel Drive By Foot Bicycle

Alternate Access / Secondary Uses (*used to access the destinations or use activities listed, but not considered the main route*)

Type	Description
Activities	Bicycling / Mountain Biking

Link Access / Infrequent Uses (*rarely used to access the destinations or use activities listed*)

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	Leads to, Within 1/4 Mile of Statutory Wilderness In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash In Intermittent stream
Misc. Resources	In, crosses Erosive soil - Moderate potential In PFYC Class 2 - Low In, crosses Erosive soil - Low potential In Erosive soil - High potential / saline soils In PFYC Class 4 - High
Resource Issues	In Noxious weeds (Salt cedar (beginning of route)) Leads to Mine hazard

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Trailhead
	Camping
	Vehicle Exploring
	Photography
	Hiking
	Geocaching
	Sightseeing
	Canyoneering
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive
	By Foot

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	Leads to, Within 1/4 Mile of Statutory Wilderness In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Low potential In Erosive soil - High potential / saline soils In PFYC Class 4 - High
Resource Issues	In Noxious weeds (Salt cedar (extreme south of route))

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.1 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Hiking
	Geocaching
	Sightseeing
	Canyoneering
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	Within 1/4 Mile of Statutory Wilderness In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Intermittent stream Crosses Wash
Misc. Resources	In Erosive soil - High potential / saline soils In PFYC Class 4 - High In Erosive soil - Moderate potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. The route crosses or is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.37 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
YES	
Route SS4303 may meet the various needs of this route while minimizing impacts or cumulative effects.	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
	Photography
	Hiking
	Geocaching
	Sightseeing

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial Crosses Mixed Sagebrush Shrubland
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	Within 1/4 Mile of Statutory Wilderness In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area
Water Resources	In ACEC - Area of Critical Environmental Concern In Intermittent stream Within 100 meters of Wash
Misc. Resources	In PFYC Class 4 - High In Erosive soil - Moderate potential Crosses Erosive soil - High potential / saline soils
Resource Issues	In Erosive soil - Low potential In Noxious weeds (Salt cedar (south end of route))

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	Crosses Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Natural Area Within 1/4 Mile of Statutory Wilderness
Water Resources	In Intermittent stream Within 100 meters of Wash
Misc. Resources	In Erosive soil - Low potential In PFYC Class 2 - Low

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. This road is redundant because the public uses it provides are better provided for by existing routes in the area. Closing this route would minimize resource damage and habitat fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA	Route Name:	Waterfall Trail
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 11.95 mi.	Width: Single Track	Class: Wilderness Inventory Road	Use Level: Medium
Route Type(s):	Connector; Braided		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	Commercial Rec Permit
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Technical Vehicle Site / Trail
	Trailhead
Activities	Vehicle Exploring
	Photography
	Geocaching
	Sightseeing
	OHV Destination Route
Modes of Transportation	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hiking
Modes of Transportation	Bicycle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Activities	Camping

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is part of the Behind the Reef Route Network System. The main routes considered critical for route connectivity in this area are SS2580, SS4129, SS4226, SS4237, SS4238, SS4239, SS4241, SS4242, SS4243, SS4245, SS4252, SS4254, SS4256, SS4263, SS4264, SS4265, SS4266, SS4281, SS4295, SS4303, and SS4308.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Other - Wash, Intermittent, Perennial In, crosses Barren In, crosses Mixed Desert Saltbush In, crosses Pinyon-Juniper Woodland In, crosses Mixed Sagebrush Shrubland In, crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In Natural Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
Water Resources	In, crosses Intermittent stream
Misc. Resources	In, crosses Wash In PFYC Class 2 - Low In Erosive soil - Moderate potential In, crosses Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In PFYC Class 3 - Moderate Leads to, crosses, Within 50 feet of Steep slopes

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

LIMITED

This route was designated limited as part of a planning and NEPA process. Public use of this route is limited to transportation type. The public may use this route by single track vehicles (including motorcycles and all non-motorized modes), year-round.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area, including the BLM Natural Area.

Alternative C

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by single track vehicles (including motorcycles and all non-motorized modes), year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. By limiting vehicle width to single track, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Limiting this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

LIMITED

Public use of this route is limited to transportation type. The public may use this route by single track vehicles (including motorcycles and all non-motorized modes), year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Rat23: By limiting vehicle width to single track, larger vehicles would be prevented from adding to surface impacts and route widening. Additionally, the potential for conflicts between users of different vehicle types would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Limiting this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Commercial Rec Permit
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
------	-------------

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Trailhead
Activities	Vehicle Exploring
	Camping
Modes of Transportation	Motorcycle
	Stock 4 Wheel Drive
	UTV
	ATV

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Sightseeing
	Hiking

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Technical Vehicle Site / Trail

General Memo(s): IDT review of this route's purpose and need (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class III - Partially Retain existing char.
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area Within 1/4 Mile of Statutory Wilderness Within 1/4 Mile of Natural Area
Water Resources	Within 100 meters of Wash
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - High potential / saline soils Within 50 feet of Steep slopes In PFYC Class 2 - Low

***Note:** Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): 0

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): 0

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): 0

Facilitator(s): Cam Gale

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
Modes of Transportation	Motorcycle
	Stock 4 Wheel Drive
	UTV
	ATV

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Sightseeing
	Hiking
	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class III - Partially Retain existing char. In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area
Misc. Resources	In, Within 1/4 Mile of Natural Area In Erosive soil - High potential / saline soils In PFYC Class 2 - Low

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.58 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Medium
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
Modes of Transportation	Motorcycle
	Stock 4 Wheel Drive
	UTV
	ATV

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
	Sightseeing
	Hiking
	Hunting
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Pinyon-Juniper Woodland
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class III - Partially Retain existing char. In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In, Within 1/4 Mile of Natural Area Within 1/4 Mile of Statutory Wilderness
Misc. Resources	In Erosive soil - High potential / saline soils In PFYC Class 2 - Low
Resource Issues	In Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.07 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Loop		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Vista
Activities	Vehicle Exploring Camping
Modes of Transportation	Motorcycle Stock 4 Wheel Drive UTV ATV

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography Sightseeing Hiking Hunting
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area In Natural Area
Misc. Resources	Within 1/4 Mile of Statutory Wilderness In Erosive soil - High potential / saline soils In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Parking Area - Undeveloped
Activities	Camping
	Hiking
	Equestrian
	Vehicle Exploring
	Photography
	Sightseeing
	Geocaching
	Cultural / Historical Viewing
Modes of Transportation	Motorcycle
	Stock 4 Wheel Drive
	UTV
	ATV

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Other - Wash, Intermittent, Perennial Crosses Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland In Barren
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area In San Rafael Swell Recreation Area In SRMA - Special Recreation Management Area In WHB Herd Area Leads to Statutory Wilderness
Water Resources	In, Within 1/4 Mile of ACEC - Area of Critical Environmental Concern In Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential Crosses Erosive soil - Moderate potential Crosses Erosive soil - High potential / saline soils In PFYC Class 4 - High
Resource Issues	In Noxious weeds (Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)	
	<p>Area Designation: Limited</p> <p>Designation per 43 CFR § 8342.1: OPEN This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.</p>
	<p>Memo(s): Portions of this route were designated as closed in previous management efforts.</p>

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Behind the Reef Route Network Geographic Area		
Length: 0.27 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Commercial Rec Permit
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Parking Area - Undeveloped
	Campsite - Undeveloped
Activities	Photography
	Sightseeing
	Cultural / Historical Viewing
	Camping
	Hiking
	Vehicle Exploring
	Canyoneering
	Geocaching
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle
	By Foot

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Behind the Reef Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Spotted bat modeled habitat (S)
	In Fringed myotis modeled habitat (S)
	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat
VRM/RSC	In Inventory Class II
	In VRM Class II - Retain existing character
Special Management Areas	In WHB Herd Management Area
	In San Rafael Swell Recreation Area
	In SRMA - Special Recreation Management Area
	In WHB Herd Area
	Within 1/4 Mile of ACEC - Area of Critical Environmental Concern
	Within 1/4 Mile of Statutory Wilderness
	In Natural Area
Water Resources	In Wash
Misc. Resources	Crosses Erosive soil - High potential / saline soils
	In Erosive soil - Moderate potential
	In PFYC Class 2 - Low
	In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Jurisdictions:	BLM	Constructed:	None identified by IDT

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Agency Facilities	Recreation Site
Lease Facilities	Commercial Rec Permit
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campground - Group Parking Area - Developed Recreation Fee Area
Activities	Photography Sightseeing Cultural / Historical Viewing Camping Hiking Canyoneering Geocaching OHV Destination Route Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive UTV ATV Motorcycle 2WD vehicle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Other - Wash, Intermittent, Perennial In Barren
Special Status Animals	In Spotted bat modeled habitat (S) In Fringed myotis modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Pronghorn year-long crucial habitat
Special Status Plants	Within 300 feet of Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) Within 300 feet of Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) Within 300 feet of Maguire's daisy (<i>Erigeron maguirei</i>) Within 300 feet of Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) Within 300 feet of Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In Inventory Class II In Inventory Class I In VRM Class I - Preserve existing character
Special Management Areas	In WHB Herd Management Area In SRMA - Special Recreation Management Area In WHB Herd Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness Within 1/4 mile of San Rafael Swell Recreation Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	In Invasive vegetation (Halogeton; Russian thistle; Cheatgrass) Within 1/4 mile of Noxious weeds (Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to group camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to group camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to group camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
	Allotment Fence (Not yet constructed)
	Gate (Not yet constructed)

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Photography
	Sightseeing
	Cultural / Historical Viewing
	Camping
	Hiking
	Canyoneering
	Geocaching
	OHV Destination Route
	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle
	2WD vehicle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) Crosses Fringed myotis modeled habitat (S) Crosses Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) Within 300 feet of Maguire's daisy (<i>Erigeron maguirei</i>) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character In Inventory Class III In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In, crosses Erosive soil - Moderate potential In PFYC Class 2 - Low In Erosive soil - Low potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass) Within 1/4 mile of Noxious weeds (Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 0.8 mi.	Width: Dual Track	Class: Wilderness Inventory	Use Level: Reclaiming Road
Route Type(s):	Connector; Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	NO
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/19/2023 Jaydon Mead, Kyle Smith, Daniel Kauffman): This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush Crosses Barren
Special Status Animals	In, crosses Other - Wash, Intermittent, Perennial In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) Crosses Fringed myotis modeled habitat (S) Crosses Spotted bat modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) Within 300 feet of Maguire's daisy (<i>Erigeron maguirei</i>) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character In Inventory Class I
Special Management Areas	In SRMA - Special Recreation Management Area In ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Intermittent stream
Misc. Resources	In, crosses Erosive soil - Moderate potential In PFYC Class 2 - Low In, crosses Erosive soil - Low potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass) Within 1/4 mile of Noxious weeds (Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/19/2023 Jaydon Mead, Kyle Smith, Daniel Kauffman): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/19/2023 Jaydon Mead, Kyle Smith, Daniel Kauffman): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (10/19/2023 Jaydon Mead, Kyle Smith, Daniel Kauffman): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park BLM Adjacent FO DO or SO
Lease Facilities	R.S. 2477 claim Water Rights
Range Facilities	Active Allotment Allotment Fence Corral Livestock Watering Access Ranch HQ / Building

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Parking Area - Undeveloped Trailhead
Activities	Camping Vehicle Exploring Photography Sightseeing Canyoneering Hiking
Modes of Transportation	Stock 4 Wheel Drive UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting Cultural / Historical Viewing
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Other - Wash, Intermittent, Perennial In, crosses Barren In Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland In, crosses Pinyon-Juniper Woodland
Special Status Animals	Crosses Fringed myotis modeled habitat (S) Crosses Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) Crosses Southwestern willow flycatcher potential habitat (E) In Monarch butterfly potential habitat (S) In Western bumble bee potential habitat (S)
Managed Species	Crosses, Within 1/4 mile of Desert bighorn sheep crucial year-long habitat In Desert bighorn sheep high-value year-long Crosses Migratory bird high-value habitat Crosses Fisheries (sport & native)
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) Crosses Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) Crosses Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) Crosses Utah spurge (<i>Euphorbia nehrdenia</i>) (S)
VRM/RSC	In VRM Class II - Retain existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area Within 1/4 Mile of ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Crosses Floodplain Crosses Perennial stream Crosses Intermittent stream Crosses Riparian Crosses Wash Within 100 meters of Well
Misc. Resources	In Erosive soil - Low potential In, crosses Erosive soil - Moderate potential In, crosses Erosive soil - High potential / saline soils In PFYC Class 2 - Low In PFYC Class 3 - Moderate In PFYC Class 5 - Very high
Resource Issues	In, leads to, crosses, Within 1/4 mile of Invasive vegetation (Russian thistle; Halogeton; Cheatgrass; Burdock) In, leads to, crosses, Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive; Burdock; Musk thistle; Russian knapweed)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

Report generated on 6/2/2024

Copyright © 2024 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class B road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	NO
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
Modes of Transportation	Stock 4 Wheel Drive
	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In VRM Class II - Retain existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Low potential In PFYC Class 3 - Moderate
Resource Issues	In Invasive vegetation (Halogeton; Russian thistle; Cheatgrass) Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Mixed Desert Saltbush Crosses Pinyon-Juniper Woodland In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat In, Within 1800 feet of Migratory bird high-value habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In VRM Class II - Retain existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area Within 1/4 Mile of ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	In, Within 100 meters of Intermittent stream
Misc. Resources	In Erosive soil - Low potential In PFYC Class 3 - Moderate Crosses Erosive soil - Moderate potential
Resource Issues	In Noxious weeds (Salt cedar; Russian olive) In Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Misc. Resources	In Erosive soil - Low potential In PFYC Class 3 - Moderate
Resource Issues	In Noxious weeds (Salt cedar; Russian olive) In Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	NO
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Other - Wash, Intermittent, Perennial In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long In Migratory bird high-value habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In VRM Class II - Retain existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area
Water Resources	Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 3 - Moderate In Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Noxious weeds (Salt cedar; Russian olive) In Invasive vegetation (Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Other - Wash, Intermittent, Perennial
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Southwestern willow flycatcher potential habitat (E)
Managed Species	In Pronghorn year-long substantial habitat In Migratory bird high-value habitat
Special Status Plants	Within 100 meters of Fisheries (sport & native) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class II - Retain existing character In Inventory Class II
Special Management Areas	In SRMA - Special Recreation Management Area Within 1/4 Mile of ACEC - Area of Critical Environmental Concern Within 1/4 Mile of Statutory Wilderness
Water Resources	Within 100 meters of Intermittent stream Within 100 meters of Floodplain Within 100 meters of Perennial stream Within 100 meters of Riparian
Misc. Resources	In Erosive soil - Moderate potential In Erosive soil - Low potential In PFYC Class 5 - Very high
Resource Issues	In Noxious weeds (Salt cedar; Russian olive) In Invasive vegetation (Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. The route is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. The route is in close proximity to streams. Proximity of roads to streams changes watershed hydrology by increasing drainage density resulting in more extreme flooding and associated erosion and sedimentation. The probability of sedimentation into surface waters is also increased because of proximity of these routes to concentrated flow during flood events. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Closing this route in alt D would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	BLM Adjacent FO DO or SO
Lease Facilities	R.S. 2477 claim
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Photography
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush Crosses Pinyon-Juniper Woodland In, crosses Barren Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long substantial habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area Within 1/4 Mile of Statutory Wilderness In San Rafael Swell Recreation Area
Water Resources	Crosses Wash
Misc. Resources	In Erosive soil - Low potential In PFYC Class 5 - Very high In, crosses Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential In PFYC Class 3 - Moderate

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 2.16 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector; Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren In, crosses Mixed Blackbrush/Sand Shrubland Crosses Mixed Desert Saltbush In, crosses Pinyon-Juniper Woodland
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern In Lands w/ Wilderness Character
Water Resources	Crosses Wash
Misc. Resources	In PFYC Class 5 - Very high In, crosses Erosive soil - High potential / saline soils In Erosive soil - Moderate potential In PFYC Class 3 - Moderate Crosses Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the 2017 Settlement Agreement, BLM is analyzing one alternative route network that designates routes in BLM-inventoried wilderness characteristics as closed to public OHV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping Vehicle Exploring
Modes of Transportation	UTV ATV Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren In Mixed Blackbrush/Sand Shrubland In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern
Misc. Resources	In Lands w/ Wilderness Character In Erosive soil - High potential / saline soils In Erosive soil - Moderate potential In PFYC Class 3 - Moderate

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the 2017 Settlement Agreement, BLM is analyzing one alternative route network that designates routes in BLM-inventoried wilderness characteristics as closed to public OHV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 0.07 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
	Vehicle Exploring
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
	Crosses Other - Wash, Intermittent, Perennial
Special Status Animals	In Townsend's big-eared bat modeled habitat (S)
	In Western bumble bee potential habitat (S)
	In Monarch butterfly potential habitat (S)
	In Fringed myotis modeled habitat (S)
	In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long substantial habitat
	In Desert bighorn sheep high-value year-long
	Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II
	In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area
	In San Rafael Swell Recreation Area
	In ACEC - Area of Critical Environmental Concern
	In Lands w/ Wilderness Character
Misc. Resources	In Erosive soil - Moderate potential
	In PFYC Class 3 - Moderate
	In Erosive soil - Low potential

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the 2017 Settlement Agreement, BLM is analyzing one alternative route network that designates routes in BLM-inventoried wilderness characteristics as closed to public OHV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Length: 0.14 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Loop		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland In Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II In VRM Class I - Preserve existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In ACEC - Area of Critical Environmental Concern
Misc. Resources	In Lands w/ Wilderness Character In Erosive soil - Moderate potential In PFYC Class 3 - Moderate In Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the 2017 Settlement Agreement, BLM is analyzing one alternative route network that designates routes in BLM-inventoried wilderness characteristics as closed to public OHV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. By closing the route to OHV use, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route: <ul style="list-style-type: none"> • either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency? • provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility? • provide a principal means of connectivity within a Travel Management Area or Management Zone? • exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset? • provide an important linkage between Travel Management Areas or Management Zones? 	NO YES NO YES NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact: <ul style="list-style-type: none"> • State or Federal special status species or their habitat? • cultural or any other specially-protected resources or objects identified in Agency planning documents? • any special area designations, e.g., National Monuments? • any other resources of concern? 	YES YES YES YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
Modes of Transportation	UTV
	ATV
	Motorcycle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In Lands w/ Wilderness Character
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 3 - Moderate In Erosive soil - High potential / saline soils

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the 2017 Settlement Agreement, BLM is analyzing one alternative route network that designates routes in BLM-inventoried wilderness characteristics as closed to public OHV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Facilitator(s): Cam Gale

Initial Evaluation Date: 7/16/2020

Evaluators: Jerrad Goodell , Aquatic Ecologist Natalie Fewings , Archaeologist Veronica Kratman , Realty Specialist Ann Glubczynski , Environmental Planning Coordinator Rebecca Anderson , Geologist Adam Robison , New User Kyle Smith , GIS Specialist	Kegen Benson , Biologist Michael Knight , GIS Specialist Michael Knight , GIS Specialist Stephanie Bauer , Range Specialist Jake Garfield , Policy Analyst Myron Jeffs , Outdoor Recreation Specialist Braden Sheppard , Legal Counsel

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 0.08 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
Modes of Transportation	ATV
	Motorcycle
	UTV

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In Lands w/ Wilderness Character
Misc. Resources	In Erosive soil - High potential / saline soils In PFYC Class 5 - Very high

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the 2017 Settlement Agreement, BLM is analyzing one alternative route network that designates routes in BLM-inventoried wilderness characteristics as closed to public OHV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. By providing a designated route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
Modes of Transportation	ATV
	Motorcycle
	UTV

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	Stock 4 Wheel Drive

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Barren In Mixed Desert Saltbush Crosses Mixed Blackbrush/Sand Shrubland
Special Status Animals	In, crosses Pinyon-Juniper Woodland In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S)
Managed Species	In Pronghorn year-long substantial habitat In Desert bighorn sheep high-value year-long Within 1/4 mile of Desert bighorn sheep crucial year-long habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In Inventory Class II In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In San Rafael Swell Recreation Area In Lands w/ Wilderness Character
Misc. Resources	In Erosive soil - High potential / saline soils In PFYC Class 5 - Very high In, crosses Erosive soil - Moderate potential Leads to Erosive soil - Low potential In PFYC Class 3 - Moderate

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. Closing the route would reduce the potential for impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint. Per the 2017 Settlement Agreement, BLM is analyzing one alternative route network that designates routes in BLM-inventoried wilderness characteristics as closed to public OHV use.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 4.21 mi.	Width: Dual Track	Class: Wilderness Inventory	Use Level: Medium Road
Route Type(s):	Connector; Braided		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	Water Rights
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Camping
Modes of Transportation	ATV
	Motorcycle
	Stock 4 Wheel Drive
	UTV

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Vehicle Exploring
	Photography
Modes of Transportation	2WD vehicle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Barren In, crosses Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland In, crosses Other - Wash, Intermittent, Perennial
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) Crosses, Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	In Pronghorn year-long substantial habitat Within 1/4 mile of Desert bighorn sheep crucial year-long habitat Crosses, Within 1800 feet of Migratory bird high-value habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In VRM Class II - Retain existing character In Inventory Class III In Inventory Class IV
Special Management Areas	In Goblin Valley Conveyance (Northern portion of route) In SRMA - Special Recreation Management Area Within 1/4 mile of Lands w/ Wilderness Character Within 1/4 Mile of Statutory Wilderness
Water Resources	Within 100 meters of Wash In Intermittent stream Within 200 meters of Spring
Misc. Resources	In PFYC Class 3 - Moderate In Erosive soil - Moderate potential In Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In PFYC Class 5 - Very high
Resource Issues	In Invasive vegetation (Russian thistle; Halogeton; Cheatgrass) In Noxious weeds (Salt cedar)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (10/25/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith, Jared Brogan): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA	Route Name:	Goblin Valley Rd.
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 0.02 mi.	Width: Multi Lane	Class: Road	Use Level: High
Route Type(s):	Principal Feeder		
Surface:	Paved	Maintained:	Regularly by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Park		

Additional Information: Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	YES
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	R.S. 2477 claim
	Water Rights
Range Facilities	Active Allotment
	Allotment Fence
	Gate
	Cattleguard
	Tank/Trough
	Spring Development
	Corral
	Water Haul Site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Range Facilities	Well/Windmill
	Monitoring Site

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
	Parking Area - Undeveloped
	Trailhead
Activities	Camping
	Sightseeing
	Photography
Modes of Transportation	Stock 4 Wheel Drive
	2WD vehicle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	ATV
	Motorcycle
	UTV

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Desert Saltbush In, crosses Mixed Blackbrush/Sand Shrubland In, crosses Other - Wash, Intermittent, Perennial In, crosses Barren
Special Status Animals	In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) Crosses, Within 1800 feet of Southwestern willow flycatcher potential habitat (E)
Managed Species	Crosses, Within 1800 feet of Migratory bird high-value habitat Within 1/4 mile of Desert bighorn sheep crucial year-long habitat In Pronghorn year-long crucial habitat Within 1/4 mile of Pronghorn year-long substantial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E)
VRM/RSC	In VRM Class II - Retain existing character In Inventory Class II In VRM Class III - Partially Retain existing char. In Inventory Class III
Special Management Areas	In Goblin Valley Conveyance In SRMA - Special Recreation Management Area Within 1/4 mile of Lands w/ Wilderness Character
Water Resources	Crosses Wash Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 3 - Moderate In Erosive soil - Moderate potential In, crosses Erosive soil - Low potential In, crosses Erosive soil - High potential / saline soils In PFYC Class 2 - Low
Resource Issues	In Invasive vegetation (Russian thistle; Halogeton; Cheatgrass) Leads to, crosses, Within 1/4 mile of Noxious weeds (Salt cedar; Puncture vine)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route would provide the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources. This is a County Class B road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/7/2023 Jared Brogan, Kyle Smith, Daniel Kauffman, Blake Baker): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 0.03 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Medium
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	YES
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped
Activities	Vehicle Exploring
	Camping
Modes of Transportation	UTV
	ATV
	Motorcycle
	Stock 4 Wheel Drive
	2WD vehicle

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
None identified by IDT	

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Desert Saltbush In Barren
Special Status Animals	In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Desert bighorn sheep crucial year-long habitat In Pronghorn year-long crucial habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class I - Preserve existing character In Inventory Class II
Special Management Areas	In Goblin Valley Conveyance In SRMA - Special Recreation Management Area In ACEC - Area of Critical Environmental Concern
Water Resources	Within 100 meters of Wash Within 100 meters of Intermittent stream
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Low potential In Erosive soil - Moderate potential
Resource Issues	Within 1/4 mile of Noxious weeds (Salt cedar) Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited to Designated Routes

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species. Closing this route would contribute to minimizing the route's potential for undue and unnecessary soil erosion. Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Closing this route to OHV use could minimize the potential for impacts to cultural sites by eliminating public motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 0.16 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Medium
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: County Class D.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	YES
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment Mineral Supplement Location Water Haul Site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Campsite - Undeveloped Parking Area - Undeveloped Vista
Activities	Camping Photography
Modes of Transportation	2WD vehicle Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	UTV ATV Motorcycle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is one of the primary access routes in the Surrounding Goblin Valley Route Network Geographic Area and connects to the Temple Mountain Network area. The following routes make up the critical network connectivity for this area: SS4327, SS2335, SS2535, SS4323, SS4330, SS4336, SS4335, SS4336, SS4371, SS4428, SS4440

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In Inventory Class III In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In Erosive soil - Moderate potential In PFYC Class 3 - Moderate In PFYC Class 2 - Low In Erosive soil - High potential / saline soils
Resource Issues	In, leads to Invasive vegetation (Halogeton)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative B, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on a less sensitive route capable of accommodating the volume of traffic anticipated for the route. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Allowing continued use of this existing route, which provides access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations. Allowing continued use of this existing route, which provides access to dispersed camping, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (12/12/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route would allow continued access in this area for the identified purpose and need. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing common access on an pre-existing route, reducing the potential for new disturbances from cross-country use or the creation of new routes to provide similar access. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 1.01 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	YES
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	YES
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment
	Mineral Supplement Location

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Modes of Transportation	UTV
	ATV
	Motorcycle

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland In Mixed Desert Saltbush In Barren
Special Status Animals	In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S) In Fringed myotis modeled habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In Inventory Class III In VRM Class III - Partially Retain existing char.
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In PFYC Class 3 - Moderate In PFYC Class 2 - Low In, crosses Erosive soil - High potential / saline soils In, crosses Erosive soil - Moderate potential Crosses Erosive soil - Low potential
Resource Issues	Leads to Invasive vegetation (<i>Halogeton</i>)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive plant species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive plant species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

	Water Haul Site
	Mineral Supplement Location

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
Modes of Transportation	UTV
	ATV

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland In, crosses Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class III - Partially Retain existing char. In Inventory Class III
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In Erosive soil - Low potential In Erosive soil - Moderate potential In PFYC Class 2 - Low
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route foot

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Surface:	None identified by IDT	Maintained:	Minimally
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM		

Additional Information: None.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	NO
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Range Facilities	Water Haul Site
	Mineral Supplement Location

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
Modes of Transportation	UTV
	ATV

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Blackbrush/Sand Shrubland In, crosses Mixed Desert Saltbush In, crosses Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class III - Partially Retain existing char. In Inventory Class III
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In Erosive soil - Low potential In Erosive soil - Moderate potential In PFYC Class 2 - Low
Resource Issues	In, crosses Erosive soil - High potential / saline soils Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route foot

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 3.57 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Connector		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park
Lease Facilities	Water Rights
Range Facilities	Active Allotment
	Water Haul Site
	Mineral Supplement Location
	Corral
	Pond/Dam/Reservoir
	Monitoring Site

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
Modes of Transportation	UTV
	ATV

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In, crosses Mixed Blackbrush/Sand Shrubland In, crosses Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class III - Partially Retain existing char. In Inventory Class III
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In Erosive soil - Low potential In Erosive soil - Moderate potential In PFYC Class 2 - Low
Resource Issues	In, crosses Erosive soil - High potential / saline soils Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive plant species. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	
YES	
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	
YES	
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	
NO	

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment
	Water Haul Site
	Mineral Supplement Location

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
Modes of Transportation	UTV
	ATV

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class III - Partially Retain existing char. In Inventory Class III
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - High potential / saline soils
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive plant species. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive plant species. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

TMA:	San Rafael Swell TMA		
Management Zone:	Surrounding Goblin Valley Route Network Geographic Area		
Length: 0.22 mi.	Width: Dual Track	Class: Primitive Road	Use Level: Low
Route Type(s):	Spur		
Surface:	None identified by IDT	Maintained:	Minimally by County
Origin:	None identified by IDT	Constructed:	None identified by IDT
Jurisdictions:	BLM; State Land		

Additional Information: County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

General Evaluation Questions

Does this route:	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	NO
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	YES
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	NO
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	YES
• provide an important linkage between Travel Management Areas or Management Zones?	NO
Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	YES
Might the continued use of this route potentially impact:	
• State or Federal special status species or their habitat?	YES
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	YES
• any special area designations, e.g., National Monuments?	YES
• any other resources of concern?	YES
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	YES
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
Jurisdictional Access	State Lands or Park

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive

Alternate Access / Secondary Uses *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Hunting
Modes of Transportation	UTV
	ATV

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland Crosses Mixed Desert Saltbush In Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class III - Partially Retain existing char. In Inventory Class III
Special Management Areas	In SRMA - Special Recreation Management Area
Water Resources	Crosses Wash
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential Crosses Erosive soil - High potential / saline soils In Erosive soil - Low potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources. This is a County Class D road. The BLM will work with permittees, ROW holders, counties, and other stakeholders as needed to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class III - Partially Retain existing char. In Inventory Class IV
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential
Resource Issues	Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

CLOSED

This route was designated closed as part of a planning and NEPA process and is currently not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Closing this route would enhance wildlife movement by reducing fragmentation. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

CLOSED

This route will be decommissioned and will not be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Closure Method(s): Sign Closed, Natural rehabilitation

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt C would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative D, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	NO

Evaluation Information

Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

Primary Access *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Water Rights
Range Facilities	Active Allotment
	Monitoring Site
	Exclosure Fence
	Well/Windmill
	Pipeline

Alternate Access *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

Link Access *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

Primary Access/Uses *(main route used to access the destinations or use activities listed)*

Type	Description
Activities	Vehicle Exploring
Modes of Transportation	Stock 4 Wheel Drive

Type	Description
Activities	Hunting
Modes of Transportation	UTV
	ATV

Link Access / Infrequent Uses *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

General Memo(s): IDT review of this route's purpose and need (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): This route is part of the Surrounding Goblin Valley Route Network Geographic Area. This route is an secondary route and is not vital for overall route network connectivity, however it does provide public motorized access to the stated purpose and need.

Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	In Mixed Blackbrush/Sand Shrubland Crosses Mixed Desert Saltbush Crosses Barren
Special Status Animals	In Fringed myotis modeled habitat (S) In Spotted bat modeled habitat (S) In Townsend's big-eared bat modeled habitat (S) In Western bumble bee potential habitat (S) In Monarch butterfly potential habitat (S)
Managed Species	In Pronghorn year-long crucial habitat
Special Status Plants	In Entrada rushpink (<i>Lygodesmia grandiflora</i> var <i>entrada</i>) (S) In Flat Top buckwheat, Smith's wild buckwheat (<i>Eriogonum corymbosum</i> var <i>smithii</i>) (S) In Wright fishhook cactus (<i>Sclerocactus wrightiae</i>) (E) In Utah spurge (<i>Euphorbia nephradenia</i>) (S)
VRM/RSC	In VRM Class III - Partially Retain existing char. In Inventory Class IV
Special Management Areas	In SRMA - Special Recreation Management Area
Misc. Resources	In PFYC Class 2 - Low In Erosive soil - Moderate potential Crosses Erosive soil - Low potential
Resource Issues	Leads to, Within 1/4 mile of Invasive vegetation (Halogeton; Russian thistle; Cheatgrass)

Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:

Limited

Designation per 43 CFR § 8342.1:

OPEN

This route was designated open to all users, year-round, as part of a planning and NEPA process and is currently managed as a BLM transportation asset.

Alternative B

Designation per 43 CFR § 8342.1:

CLOSED

Public OHV use of this route is not allowed. Authorized use can occur on this route, as authorized. This route will not be decommissioned and will continue to be managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Limiting motorized access on this route would minimize potential for impacts to wildlife habitats. By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive plant species.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Closing this route in alt B would reduce the overall route footprint in the area and eliminate public motorized use on this route. This would also reduce the potential for impacts to resources associated with this area.

Alternative C

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This is generally the best location of this existing route for users of the area. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Allowing continued use of this existing route, which provides access to range features, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

(no known conflicts among users or no known resource concerns to minimize for)

- 43 CFR § 8342.1 (c)
- 43 CFR § 8342.1 (d)

Memo(s): IDT review of how this designation addresses the designation criteria (11/20/2023 Jaydon Mead, Daniel Kauffman, Kyle Smith): Opening this route provides the least resource damaging access to the feature identified in the purpose and need because the route currently exists and the area has already been identified for this type of public motorized use. Under alternative C, the impacts to resources in this network area would be minimized by closing other routes within this network area (see Appendix C of the EA for additional minimization considerations and mileage details for this network area).

Alternative D

Designation per 43 CFR § 8342.1:

OPEN

This route is open to all users, year-round.

Specific Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
