<b>TMA:</b>	Labyrinth Canyon/Gemini Bridges		
<b>Length:</b> 1.86 mi.	<b>Width:</b> Dual Track	<b>Class:</b> Primitive Roads	<b>Use Level:</b> Low
<b>Route Type(s):</b>	Connector		
<b>Surface:</b>	None identified by IDT	<b>Maintained:</b>	None identified by IDT
<b>Origin:</b>	None identified by IDT	<b>Constructed:</b>	None identified by IDT
<b>Jurisdictions:</b>	BLM		

**Additional Information:** None.

### General Evaluation Questions

<b>Does this route:</b>	
• either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route maintained by a county or another government agency?	<b>YES</b>
• provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or other jurisdictional responsibility?	<b>YES</b>
• provide a principal means of connectivity within a Travel Management Area or Management Zone?	<b>NO</b>
• exist as a result of a previous agency land use or implementation-level planning document decision and is managed as a transportation facility asset?	<b>NO</b>
• provide an important linkage between Travel Management Areas or Management Zones?	<b>NO</b>
<b>Does this route provide network connectivity that contributes to recreational opportunities, access to specific recreation sites, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?</b>	
<b>YES</b>	
<b>Might the continued use of this route potentially impact:</b>	
• State or Federal special status species or their habitat?	<b>YES</b>
• cultural or any other specially-protected resources or objects identified in Agency planning documents?	<b>YES</b>
• any special area designations, e.g., National Monuments?	<b>YES</b>
• any other resources of concern?	<b>NO</b>
<b>Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?</b>	
<b>YES</b>	
<b>Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?</b>	
<b>NO</b>	

## Evaluation Information

### Commercial, Administrative, Property and Economics

The following items help to identify the purpose and need of this route. This route provides access to the following facilities and/or jurisdictions for the purpose of carrying out administrative and/or authorized operations or for jurisdictional access.

**Primary Access** *(leads directly to the listed jurisdiction or facility, and IS the main route used for access)*

Type	Description
Lease Facilities	Commercial Rec Permit (SRP) Other Rec Permit (SRP) ROW - Trail (UTU 92236)
Range Facilities	Active Allotment Dam/Reservoir
Mineral Facilities	AML Site

**Alternate Access** *(leads directly to the listed jurisdiction or facility, but IS NOT the main route used for access)*

Type	Description
None identified by IDT	

**Link Access** *(does not lead directly to the listed jurisdiction or facility, but is required to access a primary access route)*

Type	Description
None identified by IDT	

### Recreational Uses

The following items help to identify the purpose and need of this route. This route:

- provides public travel access to the listed recreation sites using the listed travel modes, and/or
- provides for recreational activity and experience opportunities in the area, and/or
- provides important route network connectivity for recreational access between two or more other routes.

**Primary Access/Uses** *(main route used to access the destinations or use activities listed)*

Type	Description
Recreation Destination	Parking Area - Undeveloped Trailhead Trail
Activities	Bicycling Competitive Non-Motorized Event
Modes of Transportation	Mountain Bike

**Alternate Access / Secondary Uses** *(used to access the destinations or use activities listed, but not considered the main route)*

Type	Description
Activities	Jeeping/4-Wheeling
Modes of Transportation	Modified 4 Wheel Drive UTV/ATV Stock 4 Wheel Drive

**Link Access / Infrequent Uses** *(rarely used to access the destinations or use activities listed)*

Type	Description
None identified by IDT	

### Resource and Use Issues

The following items help to identify potential natural and cultural resource issues associated with the location and use of this route. This route is located in, leads to, crosses, or is within a set distance of the following resources or issues.

Resource Type	Description
Biomes	Crosses Salt Desert Shrub Crosses Blackbrush Crosses Pinyon-Juniper
Special Status Plants	In Jones cycladenia modeled potential habitat In Navajo sedge potential geology
VRM/RSC	In VRM Class II - Retain existing character
Special Management Areas	In SRMA - Special Recreation Management Area In Recreation Management Zone
Water Resources	Crosses Ephemeral stream
Misc. Resources	In Erosive Soil - Moderate Potential (Wind)

*Note: Specific sensitive resources, such as cultural resources, paleontological resources, or threatened or endangered species are not listed in this report for their protection, but were considered during the evaluation of this route.*

### Potential Alternative Route Designations

#### Alternative A (Current Management, No Action Alternative)

##### Area Designation:

Limited to Designated Routes

##### Route Designation:

Open

##### Specific designations by user type:

**OHV Public:** Designation per 43 CFR § 8342.1: Open - The public may use this route by all motorized modes of transportation, year-round.

**Non-motorized Public:** The public may use this route by all non-motorized modes of transportation, year-round.

**Authorized/Permitted Users:** Authorized users may use this route by all modes of transportation, year-round.  
*Additional users may be authorized by the BLM through future authorizations.*

**Administrative/Official Users:** All Federal, State and Local agencies may use this route by all modes of transportation, year-round.

## Alternative B

### **Comprehensive Designation:**

CLOSED

This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

### **OHV Public: Designation per 43 CFR § 8342.1: Closed**

### **Specific Designation Criteria Addressed and Relevant to Route Issues:**

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

**How Designation Addresses Criteria Above:** Closing the route would minimize the potential for conflicts between off-road vehicle users and mountain bikes. Closing the route would reduce the potential for travel-related impacts to special status species and their habitats by eliminating motorized use and removing the route footprint. Closing this route would minimize impacts to wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.) Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use and reducing the route footprint, thereby minimizing the potential for future soil erosion and vegetation damage.

### **Designation Criteria Addressed but Not Relevant to Route Issues:**

*(no known conflicts among users or no known resource concerns to minimize for)*

- 43 CFR § 8342.1 (d)

**Closure Method:** Natural Rehab

## Alternative C

### Comprehensive Designation:

OPEN

### Specific designations by user type:

**OHV Public:** Designation per 43 CFR § 8342.1: Open - The public may use this route by all motorized modes of transportation, year-round.

**Non-motorized Public:** The public may use this route by all non-motorized modes of transportation, year-round.

**Authorized/Permitted Users:** Authorized users may use this route by all modes of transportation, year-round.  
*Additional users may be authorized by the BLM through future authorizations.*

**Administrative/Official Users:** All Federal, State and Local agencies may use this route by all modes of transportation, year-round.

### Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

**How Designation Addresses Criteria Above:** Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

### Designation Criteria Addressed but Not Relevant to Route Issues:

*(no known conflicts among users or no known resource concerns to minimize for)*

- 43 CFR § 8342.1 (d)

## Alternative D

### Comprehensive Designation:

OPEN

### Specific designations by user type:

**OHV Public:** Designation per 43 CFR § 8342.1: Open - The public may use this route by all motorized modes of transportation, year-round.

**Non-motorized Public:** The public may use this route by all non-motorized modes of transportation, year-round.

**Authorized/Permitted Users:** Authorized users may use this route by all modes of transportation, year-round.  
*Additional users may be authorized by the BLM through future authorizations.*

**Administrative/Official Users:** All Federal, State and Local agencies may use this route by all modes of transportation, year-round.

### Designation Criteria Addressed and Relevant to Route Issues:

- 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
- 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
- 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

**How Designation Addresses Criteria Above:** Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume. Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

### Designation Criteria Addressed but Not Relevant to Route Issues:

*(no known conflicts among users or no known resource concerns to minimize for)*

- 43 CFR § 8342.1 (d)
