# CATEGORICAL EXCLUSION DOCUMENTATION

# NUISANCE WILD BURRO REMOVAL PRIVATE LAND OUTSIDE CIBOLA TRIGO HMA, AZ DOI-BLM-AZ-C020-2022-0020-CX

A. Proposed Action

**BLM Office:** Yuma Field Office

Lease/Serial/Case File No.: N/A

Proposed Action Title: Nuisance Wild Burro Removal outside the Cibola Trigo Herd Management Area

(HMA), AZ

**Applicant:** Bureau of Land Management, Yuma Field Office

**Location of Proposed Action:** 

Gila and Salt River Meridian, La Paz County, Arizona
T1N R23W
Sec. 21 NWSW, SWSW, SESW, SWSE
Sec. 28 NWNW, NENW, NWNE, SWNW, SENW, SWNE, NWSW, NESW, SWSW
Sec. 33 NWNW, SWNW, NWSW

<u>Description of Proposed Action:</u> The Bureau of Land Management (BLM), proposes the use of bait traps to capture 85 nuisance wild burros and approximately 15 nuisance wild horses on private property, Arizona (refer to attached map). Trap sites identified on State Trust Land; any permit requirement(s) would be obtained prior to utilizing location. A temporary holding facility would be located on private property.

A series of bait traps used to catch nuisance burros would be placed on private property, and possibly State Trust Land. Each trap location is within previously disturbed areas. The need for this trapping is a result of complaints of natural resource loss and destruction, damage to private property and concerns about human health and safety by private property owners. It is the responsibility of the BLM to manage wild burros on public and adjacent lands under The Wild Free-Roaming Horses and Burros Act of 1971.

# **Mitigation Measures/Design Features:**

Stipulations that would apply to the proposed action are attachments 3 and 4.

#### **B.** Land Use Plan Conformance

<u>Land Use Plan (LUP) Name:</u> Yuma Field Office Record of Decision and Approved Resource Management Plan

**Date Approved/Amended:** January 2010

The proposed action is in conformance with the applicable LUP because it is either <u>specifically</u> provided for, or it is clearly consistent with, the following LUP decision(s):

#### **Decision(s) and Page Number(s):**

Page 2-94; HB-003: The Appropriate Management Level (AML2) for the Cibola-Trigo HMA will be 165 burros and 150 horses. Monitoring data, including climate, population, and vegetative data, will be collected and used to support removals and/or the revision of AML2 for either wild horses, burros, or both.

## C. Compliance with NEPA:

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9 (BLM CXs) or 43 CFR 46.210 (DOI CXs).

BLM Categorical Exclusions D. Rangeland Management 4. "Removal of wild horses and burros from private land at the request of the landowner."

#### **D.** Extraordinary Circumstances Review

In accordance with 43 CFR 46.215, if any of the following circumstances are present, then further NEPA analysis is required unless mitigating measures or other actions can be incorporated into the proposed action to avoid significant effects.

The ac	The action has been reviewed to determine if any of the extraordinary circumstances (43 CFR					
46.213	46.215(a)-(1)) apply. The project would:					
(a)	(a) Have significant impacts on public health or safety.					
Yes	No	Rationale:	Preparer's Initials			
	X	The proposed gather activities using bait traps is of low risk to	CB			
		public health and safety. It is proposed to occur on previously				
		disturbed lands located outside of the Cibola-Trigo HMA.				
(b)	•	ignificant impacts on such natural resources and unique geographic cl				
	historic or cultural resources; park, recreation or refuge lands; wilderness areas; wild or scenic					
	rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands;					
wetlands (Executive Order 11990); floodplains (Executive Order 11988); national monuments;						
migratory birds; and other ecologically significant or critical areas.						
Yes	No	Rationale:	Preparer's Initials			
	X	None of these resources or areas with unique geographic	CB			
		characteristics are present in the proposed gather areas. The bait	ADR			
		traps would be located in previously disturbed areas to the extent				
		possible. Any new areas would have a biological and cultural				
		survey conducted prior to placing traps to ensure avoidance of				
		sensitive resources.				
(c)	(c) Have highly controversial environmental effects or involve unresolved conflicts concerning					
		tive uses of available resources [NEPA section 102 (2) (E)].				
Yes	No	Rationale:	Preparer's Initials			
	X	The proposal would have negligible impacts. No conflicts between	CB			
		alternative resource uses are anticipated. Similar projects				
		implemented in the past have not resulted in resource conflicts or				
		controversial impacts. This action is required by 43 CPR 4720.2-1

# **E.** Compliance Review Conclusion

I have reviewed this plan conformance and NEPA compliance record and have determined that the proposed project is in conformance with the approved land use plan ant that no further environmental analysis is required.

# **Approving official:**

Title: Field Manager, Yuma Field Office

#### **Contact Person:**

For additional information concerning this CX review, contact Chad Benson, Wild Horse & Burro Specialist, Kingman Field Office, 2755 Mission Blvd, Kingman, AZ 86401, and (928) 718-3750

Note: The signed conclusion on this compliance record is part of an interim step in the BLM's internal decision process and does not constitute an appealable decision. A separate decision to implement the action will be prepared in accordance with program specific guidance.

#### Hello-

We are being overrun by feral donkeys in our valley, numbers fluctuate between 50-150 daily. It has impacted farmers in valley as no produce contracts can be made due to food safety issues. The desert is extremely dry to the east, we continue to maintain our perimeter fence however with limited feed in the desert mass herds are pushing fences over. We are in desperate need for help, our farms are being destroyed by the constant pressure. We are having to move baled hay in a matter of hours due to herds tearing stacks down, not to mention the quantity of alfalfa being consumed. I understand your funds are limited but it's a serious situation, we need assistance urgently. Please respond with some guidance.

To: Benson, Chad M Mon 7/18/2022 4:09 PM Colorado River District BLM Office-

This is a follow-up letter to address my concerns in an email sent on May 31, 2022. I am concerned that my plea for assistance has gone unnoticed. We are located in the Cibola Valley in Ciboa Arizona and have over the past 2 years become overrun with a feral burro population. As stated in my prior email, we desperately need immediate assistance. The burros currently have destroyed many thousands of dollars worth of property and agricultural products. (graveled roadways have become permanent trails, waterways are being impacted and crops are being consumed). We are dealing with herds of 50-150 on a nightly basis. Our perimeter fence has been destroyed in places; as we work to maintain these areas herds find other points of access and the cycle continues. I am asking for some immediate help. Farming is tough currently; considering the continued drought and increased cost of production, this damage is absolutely consuming any hope for return.

I look forward to a response, Michael Mullion Farmer Board Member Cibola Valley Irrigation District

## **Stipulations**

- 1. Actions which result in impacts to archaeological or historical resources shall be subject to the provisions of the Archaeological Resources Protection Act of 1979 as amended (ARPA) and the Federal Land Policy and Management Act of 1976. These statutes protect cultural resources for the benefit of all Americans. No person may excavate, remove, damage, or otherwise alter or deface any historic or prehistoric site, artifact or object of antiquity located on public lands without authorization. Damaging cultural resources more than 100 years of age is a punishable act under ARPA. Criminal and/or civil penalties may result if damage to archaeological resources is documented, as provided under ARPA and its implementing regulations at 43 CFR 7.
- 2. The holder shall immediately bring to the attention of the Yuma Field Office (or designated representative) any cultural resources (prehistoric/historic sites or objects) and/or paleontological resources (fossils) encountered during permitted operations and maintain the integrity of such resources pending subsequent investigation. All permitted operations within 30 meters (100 feet) of the cultural resources shall cease until written authorization to proceed is received from the Authorized Officer.
- 3. Contractors shall receive a copy of the tortoise handling guidelines (attached) and distribute to all workers the day of the project and advise on handling procedures.
- 4. In the event hazardous materials are encountered during any activities associated with this, all activity would cease with the hazardous material and a BLM Law Enforcement Ranger would be contacted immediately.

# GUIDELINES FOR HANDLING DESERT TORTOISE ENCOUNTERED ON ROADS AND VEHICLE WAYS

- 1. Stop your vehicle and allow the tortoise to move off the road.
- 2. If the tortoise is not moving, gently\*\* pick up the tortoise and move it approximately 200 feet off the road to a shaded location.
  - a. Do **not** turn the tortoise over.
  - b. Move the tortoise in the direction it was traveling. If it was crossing the road, move it in the direction it was crossing.
  - c. Keep the tortoise within 12-18 inches of the ground, move slowly so as not to cause it to become alarmed.
  - d. Release the tortoise under the shade of a bush or rock.
  - \*\* Tortoise store water in their bladder. If a tortoise becomes alarmed its defense is to void its bladder onto the captor. This could lead to dehydration of the tortoise and potentially to death.

#### **DECISION MEMORANDUM**

Outside Cibola-Trigo HMA: Outside Cibola Trigo HMA Nuisance Wild Burro Gather
DOI-BLM-AZ-C020-2022-0020-CX

U.S. Department of the Interior Bureau of Land Management Yuma Field Office 7431 E. 30th Street Yuma, AZ 85365

#### Introduction

The Yuma Field Office proposes the use of bait traps to capture 85 nuisance wild burros and 15 wild horses outside the Cibola-Trigo Herd Management Area. A series of bait traps would be used to catch nuisance wild burros. The gathered animals would then be transported to a Wild Horse and Burro facility, where they would enter the Wild Horse and Burro adoption program. The gather area would be located within private property north of the Cibola Wildlife Refuge, Arizona.

The need for this gather is a result of complaints of property damage, public health and safety, and the public traveling on roads in the area.

#### **Approval and Decision**

Based on the analysis of the *Outside Cibola-Trigo HMA: Outside Cibola Trigo HMA Nuisance Wild Burro Gather* Project, described in Categorical Exclusion (CX) # DOI-BLM-AZ-C020-2022-0020-CX, and field office staff recommendations, I have determined that the project is in conformance with the Yuma Field Office Record of Decision Approved Resource Management Plan (2010) and is categorically excluded from further environmental analysis. It is my decision to approve the action as proposed with incorporation of the stipulations and mitigation measures attached to the CX document.

**Administrative Review or Appeal Opportunities** This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the attached Form 1842-1
