Dear Nicole,

I'm a mother of four young children, based in Michigan and without the means to travel to Alaska. Please do what I cannot and slow down the rush to lease the Coastal Plain. As a nation we seem to be short on a few things. Money it seems will always be lacking, but we shouldn't sell something that we cannot replace. Please make sure those who care for the wildlife of Alaska and beyond have a voice at these meetings and are heard.

Respectfully,

Rebeca Ardis.
