To: blm_ak_coastalplain_EIS@blm.gov

I am writing to protest the proposed drilling in the Arctic National Wildlife Refuge. It makes NO sense. With all the fracking that's going on, we are already a major oil and gas producer. There may be 6 months worth of recoverable oil up there and for that, you are willing to destroy one of the most pristine places on the planet. I was against this when I lived in Alaska and I am against it still.

DON'T DO THIS!
