To: Blm_ak_coastalplain_EIS@blm.gov

I feel very strongly that current administrations pulled a fast one on not just the American people, but specifically Alaskans on this decision.

All issues should be addressed before further action –

impacts on local native communities,

impact on wildlife esp the Porcupine caribou herd,

impact on threatened and endangered species,

and the impact on all Americans with the loss of one more, and one of the last, great wilderness areas we have in this country.
