Dear Secretary Zinke,

Il had very high hopes when you took office. I was acquainted with your work in Montana and even had the pleasure of meeting you. You have an opportunity to do some really good work but not if you are going to be tied so tightly to the Trump agenda and the corporate and industry takeover of our private lands. Yours will be a very short lived tenure unless balance is introduced to the policies currently taking place.

Radical environmentalism as well as radical industry prejudice will not be tolerated.

Sincerely,

Bruce Gordon
