To Whom It May Concern:

I would like to comment **Against the Selling off of any land in the Arctic Refuge.**

There is a massive surplus of oil and gas leases and permits, adding to that supply doesn't make any sense.

Even Shell Oil has ownership in Wind Farms; our country needs to and must transition to alternative energy sources.

I do not understand why Sen. Murkowski pushed through this provision , without debate, when last year's sale in the US Natl. Petroleum Reserve in Alaska brought in bids of less than 1% of the acres offered.

There is no need or reason to drill for oil in the Arctic Refuge!

Thank you for your consideration,
