I totally oppose the proposal to drill for oil and gas in the Arctic Refuge. It will cause irreversible damage to wildlife, a conclusion that was made by the US Fish & Wildlife Service. It will harm caribou, polar bears & 200 species of migratory bird in one of the most sensitive & pristine places on the planet.

Also there is no need to do so – the oil & gas industries have a massive surplus of oil & gas leases & permits. Last year, industry bid on just 7% of the federal acreage offered for lease.

Please DO NOT approve drilling in this area.
