BLM and TRUMP ADMINISTRATION:

I am vehemently OPPOSED to opening the Arctic National Wildlife Refuge to any oil exploration. Such activity would do irreparable harm. It can't be undone, in case that's not clear. The fragile land can't recover. STOP your greed. STOP forcing yet another effort to protect this priceless wilderness for an unrealistic short term gain. STOP deceptively sneaking unrelated items into bills that have other issues as the prominent one, hoping no one will notice. LOOK UP the definition of "wildlife refuge."

Instead, START fully backing renewable sources of energy! GO THERE, to the coastal plain, as I have, and feel your smallness.

Sincerely,

Dawn Hagan
