I am appalled by the attitude of our current politicians and usurpers of our nation's dwindling wilderness areas. Never have I been more relieved to be an older person in today's world. It means quite harshly that I am thankful I don't have another 50 or 60 years to live. You are destroying our natural resources, and that includes clean air, clean water, and yes, pure beauty. I despise everything this administration stands for and has shoved down our throats since January 2016. Hiding this article in the bowels of the tax reform crap is just another example. I have no trust in our government any longer. It is no longer a government of the people, by the people, and for the people. It is about greed, led by a pack of greedy parasites. YOU ARE NOT LISTENING TO THE PEOPLE WHO CARE. And to the following excerpt from the public comment announcement, I say you are liars, thieves, and will go down in history as the corrupt criminals you all now are. "The BLM will work collaboratively with interested parties to identify the management decisions best suited to local, regional, and national needs and concerns,

To what end, BLM? To what fruitful end, and for whom?
