Thank you for taking my comment.

Evidence-based science presents multiple reasons to stop wasting everyone's time on leasing in the Alaskan Wildlife Area: adverse conditions and risk of catastrophic environmental damage with benefits only for the ultra wealthy who believe they are impervious to increased climate change outcomes...

Please cease and desist. Accept no proposal to implement oil and/or gas leasing within the Arctic National Refuge. Hello - it's a refuge; if you are not helping, you are hurting. This is not a non zero sum gain.

Wake up. It is individual efforts that will save the planet.
