To: "blm\_ak\_coastalplain\_EIS@blm.gov" &lt;blm\_ak\_coastalplain\_EIS@blm.gov&gt;

Att: Bureau of Land Management:

I want to voice my concern about drilling ion Alaska Arctic National Wildlife Refuge. I am concerned about the long term safety of drilling without harm to the surrounding environment. I do not believe that we have seen evidence of promised safety results over long periods of time. We know from experience that spills and damage to areas with drilling continue to happen. This area can not risk drilling for short term gain at the risk of future irrevocable damage . I am appalled that this is even being considered and urge you to continue to protect this area and not allow drilling. PLEASE!

Thank you for reconsidering the opening of this area for drilling- it would be a huge mistake for our country and our future.

Sincerely,  
Jill Heijer
