To Whom It May Concern,

I am writing to urge you to halt current plans for oil/gas drilling in the Arctic Refuge. The Refuge is an area of irreplaceable wildness and wildlife habitat, and drilling there will not only compromise these values, but would also exacerbate climate change by increasing oil/gas production at a time when we need to move away from fossil fuel consumption to mitigate climate change. Please protect the Arctic Refuge from oil/gas drilling. Thanks.

Sincerely,

Chad Hanson, Ph.D., Ecologist
