I am an Alaska citizen and I am VERY opposed to the latest changes the Trump Administration is trying to impose on hunting and trapping practices in national wildlife refuges and preserves. These practices show no respect for animal life and habitat. These practices will damage the natural balance of animal life and behavior and may lead to severe depletion or even extinction of species. Can you IMAGINE allowing bears to be hunted in their maternity dens??? TERRIBLE!

All of these proposed changes are just more evidence of an ignorant and heartless administration that is just pandering for more votes. If Alaskan officials allow these changes I will know that they are in the same category. DREADFUL!

Carolyn Harris
