I am very concerned that human activity in this globally important ecosystem will negatively affect the Porcupine Caribou herd.

Please consider these animals who cannot speak for themselves, as well as the indigenous communities that depend on them for sustenance and identity, in your deliberations.

While economic activity and energy generation is very important for the American people, doing the right thing for an ancient and essential part of planet earth is too.

Together we can find a healthy balance.

Thank you,

Geoff Hoare  
Vancouver, BC
