To the Bureau of Land Management:

We strongly oppose leasing for the exploration for oil and gas in the Arctic National Wildlife Refuge. This refuge is one of the untouched places left in our land, and a haven for important and in some cases endangered wildlife, that, if disturbed and exploited, can never be replaced. It is also a travesty to threaten the way of life of the native peoples who live there and whose historic homeland it is. Why, at a time when demand for oil is on a downward trend and when the demand is being satisfied without further drilling of any kind, would the Bureau of Land Management risk the spoliation of such an important National Refuge?

Please do not proceed with allowing leasing in this refuge.

Thank you.

Sincerely,

Martha and Robert Hocutt
