To Whom it May Concern at BLM:

The environmental impacts of drilling in ANWR could be devastating to caribou, wolves, birds and polar bears. Drilling in this area would be a mistake for wildlife everywhere as it is important to migration of several species. Oil and gas derived from here would also not produce much, won't lower gas prices, will harm the environment and 70% of American voters oppose drilling in the ANWR, according to a [Yale survey](#).

Please do not let drilling go forward.
