Dear Bureau of Land Management, Alaska,

I feel that sufficient renewable resources are being developed that organizations that are meant to serve the people of the US should NOT bow to pressure from the current administration to risk the Arctic Refuge's fragile environment purely for financial gain for friends of the current administration.

Please keep the future larger good of the people of the US and the world in mind and stand strong in preserving Alaska.

Thank you,  
Pamela Hastings  
Port Angeles, WA
