I OPPOSE DRILLING FOR OIL AND GAS IN THE ARCTIC REFUGE!

The Refuge is a national treasure, we have to preserve it. The fact that this study stems from a tax bill indicates that moves to drill in the Refuge are motivated by political and self interests. If this weren't the case, there would be no rush to complete the study, the study would be thorough, scientific, and include a NO DRILL option. Comment periods would be long enough to allow the public to digest and write substantive comments on the EIS.

Stand up for America and our national interests. The Refuge belongs to us. It preserves rare nature and rare wildlife. It is beautiful. With drilling, polar bear and caribou breeding will be harmed, perhaps irreparably. Native Americans will suffer. It's more economic to obtain fossil fuels elsewhere. As I understand it, product would be sold overseas.

I strongly object to drilling.
