Please let this be the last time we have to fight this fight! The Arctic Refuge is no place for oil and gas. Oil and gas activities should not be allowed on the Coastal Plain of the Arctic Refuge. This is the single most destructive attack on the wilderness, wildlife, and subsistence resources of a national wildlife refuge in modern history.

The Administration is putting politics above protection of one of our most treasured public lands. Rushing into leasing is not what the Refuge deserves or what the law requires. The administration needs to comply with all the important legal protections that are in place to protect caribou, water, subsistence, and other sensitive resources of the Coastal Plain.

Interior needs to consider the impacts from all stages of oil and gas, including seismic activities, leasing, exploration drilling, and development, as well as any related infrastructure or other activities. The environmental impacts from oil and gas will extend well beyond the footprint of any actual developments and will harm the wildlife, water, subsistence, and other values the Arctic Refuge was set aside to protect.

Thank you.

Pam Jiranek, lucky Alaskan visitor
Earlsville, VA
