RE: Coastal Plain Oil and Gas Leasing Program EIS

I am STRONGLY OPPOSED to oil and gas drilling in the Arctic National Wildlife Refuge (ANWR). The most promising oil plays are still in the lower 48 states, primarily on state and private lands.

I am strongly opposed to the expedited leasing of at least 400,000 acres in ANWR to the highest bidder.

I am strongly opposed to the provisions in the *Tax Cuts and Jobs Act of 2017* requiring the Secretary of the Interior, acting through the BLM, to establish and administer a competitive oil and gas program for the leasing, development, production, and transportation of oil and gas in and from the 1002 Coastal Plain area of the Arctic National Wildlife Refuge (ANWR). These provisions were tucked into the tax package and passed with 50 votes instead of the 60 votes that should have been required for such provisions.

Thank you for the opportunity to provide input to this important matter.
