Hello,

I'm writing to support a No Action alternative for the proposed coastal plain oil and gas lease program.

The Arctic National Wildlife Refuge and the land of the Gwich'in people should not be subjected to the harmful impacts of oil and gas development. Further, the future of energy lies in renewable and clean energy sources such as wind and solar, not in climate change-causing fossil fuels.

It's time we move to protect our wild areas, the integrity of native peoples, and our climate's future.

Support a No Action alternative!
