Dear Sirs:

I want to take this opportunity to convey my STRONG opposition to oil and gas drilling in the Arctic Refuge.

The Arctic National Wildlife Refuge is too precious and fragile to be permanently damaged by any accidents that might occur in oil and gas drilling, not to mention

the damage that will undoubtedly be done in the process of extraction itself. We know from experience that the web of roads, requisite infrastructure and inevitable

spills will cause irrevocable damage to one of the most sensitive and pristine places on the planet.

I hope you will reconsider your ill-conceived, dangerous, and costly rush to sell out one of the last truly wild places on earth.

Sincerely,

David James

David N. James, Architect
