The Arctic Wildlife Refuge is just that - a REFUGE. I cannot believe that you would consider opening up this pristine area to being devastated by drilling and exploitation and for what.....in the name of MONEY and greed?? Please stop destroying our precious natural resources!!

This refuge is unique in the animals that call it home, some of which cannot be found elsewhere. Americans want and deserve to have our resources protected by our government, not sold to the highest bidder!

I beg you to do the right thing and keep your hands off the Arctic Wildlife Refuge.

Thank you,
Marie Hyder
