Our family is completely opposed to any exploration and drilling in ANWR under any circumstances.

Our country is being taken over by greedhead billionaires who think nothing of raping and destroying a pristine wildlife refuge. One of the last in America.

This latest attempt to destroy American wild places and wildlife so that greedy corporations and greedy billionaires and add a few more billion dollars to their obscene profits is the last straw.

Tell your corrupt Secretary to get ready for civil war on the north slope as organized groups of heavily armed people throw themselves in front of the bulldozers and sabotage equipment.

I also foresee attacks on the board of directors and corporate officers of any company who is stupid enough to try to drill in ANWR.

Also let your greedhead partners in crime, the republican congress that their time is up. Americans will no longer vote for the corrupt bribe takers who sell out their country in exchange for obscene amounts of campaign money from corporations and billionaires. Change is coming BLM. Are you ready? Or is it too late to count on you to do the right thing? Drill in a pristine wildlife refuge? Or you insane in DC, or stupid? Or just corrupt?

At any rate, we vote NO. Get it? NO NO NO!
