I oppose any mineral exploration in the arctic national wildlife refuge. I am 31 years old and want my children to be able to grow up on a planet that still has remote and wild places teeming with diverse and intact wildlife. The idea that our amazing country, one with the foresight to protect large pieces of land and the animals and plant life dependent on those places, would trade our commonwealth for short-sited financial gains, makes me angry and sad. I hope we will be wise.
