Interior Department Bureau of Land Management,

We are saddened (and outraged) by the prospect of the sale of oil and gas leases are being permitted in the Arctic National Wildlife Refuge. Once the land is destroyed and the bear and caribou herds disrupted there is no future "whoops, sorry" If you allow this, when historians look back they will wonder at the outrage of our government. Please think not of profit but of preservation for future generations. Thank you. Sandy & Ole Jaeger

We oppose oil and gas activities in the Arctic National Wildlife Refuge and stand with the Gwich'in to demand that the Coastal Plain of the Refuge remain protected for future generations.
