Please don't lease our coastal plain for oil and gas exploration. It is one of the few places left on the planet where large swathes of wildlife are able to safely breed and nurture their young in an intact environment. I fear that with the development of oil and gas systems, this ecosystem will be in danger of succumbing to corporate greed and loose regulations and will be forever lost to the American public as the beautiful place it is today.

I grew up in Alaska and hope to one day see the beautiful coastal plains with my own eyes, and I hope my children will be able to as well.

I sincerely hope you take this into consideration while making your decision.

Thank you,

DevDharm Khalsa  
Resident of Fairbanks Alaska.
