Shame on U. S. Senator Lisa Murkowski for sneaking the Arctic Refuge drilling provision into the 2017 Tax Package, thereby requiring lesser votes than would have been required to pass that provision had it been presented alone. Drilling in the Arctic Refuge defies reason. We have no need for more U. S. oil. The damage to wildlife habitat that would ensue, together with the possibility (more accurately, probability) of accidents (think leaks) makes this provision incomprehensible.

SHAME on Paul Ryan and the Republican Congress for their wimpy performances and the embarrassment they have caused the majority of U. S. citizens with their non-stop "party over country" actions. Remember

WHAT GOES AROUND COMES AROUND.....
