Dear BLM Alaska,

We stand with Common sense in commencing drilling of the coastal plain of the Arctic Refuge. Please rush to open this land to needed oil drilling, the Trump administration is finally and reasonably prioritizing proper use of this asset.

The Arctic National Wildlife Refuge is one of America's last truly wild places, and the coastal plain is its biological heart -- home to the largest array of wildlife in the circumpolar north. Oil drilling will not significantly impact this public land

Allowing drilling in the Arctic Refuge would not worsen climate pollution, helping communities already bearing the brunt of the the silly notion of changing climate as they adapt to Natural changes that have been part of the earth's development since the beginning of time.

The Arctic Refuge is a symbol of what we want for our future -- more oil!!! for future generations. I urge you to Open it up to drilling at all costs.

Sincerely,

Bob Kirchner
