Dear BLM,

Please do not allow oil and gas leases in the Arctic National Wildlife Refuge Coastal Plain. Oil and gas drilling should not be allowed in the Arctic National Wildlife Refuge and especially the Coastal Plain. The request of the people of the land, the Gwich'in, needs to be honored. The pristine land of the the Arctic National Wildlife Refuge and the Porcupine Caribou Herd integral to Gwich'in culture needs to be protected from the detrimental affects of oil and gas drilling. Thank you!

Sincerely,

Theodore M. Krieg
