[EXTERNAL] Proposed oil & gas leasing on the coastal plain of the ANWR1 message

Dear Sir / Madam,

I am writing because of the inadequate consideration of the proposed oil & gas leasing on the coastal plain of the ANWR. This is the only part of Alaska's north slope protected from development.

I had the the chance to visit Arctic Alaska twice, of course in a sustainable way without leaving a trace, and it is a place that needs to be protected.

The 1002 area is the birthing ground of the Porcupine Caribou Herd and a habitat for many more species.

This proposed leasing goes against the values for which the Refuge was set aside.

And definitely, we don't need the oil. This won't balance the budget. It will, however, aggravate global warming.

Thank you for considering the negative consequences of the proposed leasing.

Sincerely,
Sophia Kohler
