To: blm\_ak\_coastalplain\_EIS@blm.gov

The Arctic Refuge is no place for oil and/or gas. Oil and gas activities should not be allowed on the Coastal Plain of the Arctic Refuge.

This is the single most destructive attack on the wilderness, wildlife, and subsistence resources of a national wildlife refuge in modern history. It MUST stop!

The Interior needs to consider the impacts from all stages of oil and gas, including seismic activities, leasing, exploration drilling, and development, as well as any related infrastructure or other activities. The environmental impacts from oil and gas will extend well beyond the footprint of any actual developments and will irreversibly harm the wildlife, water, subsistence, and other values the Arctic Refuge was set aside to protect.

Please act wisely and responsibly.

Thank you,  
Marielle Marne & Steve Moore
