I am writing as a concerned Alaskan in opposition of development of ANWR. This land has served its ppl for hundreds of years and it needs to remain untouched. We are proactive in how we live and want our future and contaminating and intruding on the land is not the way. We need for this land to remain free and untouched so our children can enjoy it and all its beauty. We live from the land and it provides us well to keep us healthy. Money is not everything to all, our land and it's preservation is more important. My prayers to you all as you weigh these decisions 🙏 Don't ever forget it's people! God knows 🙏
