To whomever is reading the Coastal Plain EIS emails,

Please fight for the earth, fight for the environment, I can only presume that residing in Alaska would endow you with respect for the glorious land on which you live. If you have no regard for that, take a moment to think of the wildlife that this endeavor will eradicate. If that does not move you, perhaps the children of the world that will have no world to live in once this economically driven, self absorbed, careless generation has destroyed their future.

Will be voting with my conscience,

Kelley McKinnon
