Ryan Zinke,

I'm an American citizen, and I vote!

Please reject the greedy, unscrupulous proposal to open the coastal plain of the Arctic National Wildlife Refuge to drilling.

NATIONAL Wildlife Refuge--belonging to ALL Americans, and held in common. NOT for the greedy, grasping handful of exploiters who are planning to, basically, rape the land. Because of der trump's [sic] blatant giveaway, his sycophants are planning to do to the Refuge what they will, in effect, be doing to ALL Americans!

In addition, on a material level, affecting everyone, burning of the oil and gas produced from the coastal plain threatens to accelerate global warming, threatening the Artic's wildlife, and all people and life across the globe.

Locally, immediately, drilling would also have a devastating, permanent negative impact on the refuge's wildlife, as well as the Gwich'in people, who rely on its caribou herd.

Please! Reject this short-sighted, greedy, unconscionable proposal!

Thank you.

H. Michael McQuown
