I oppose oil any exploration & extraction lease the ANWR. This precious home to many animal species & plants was set aside for protection over 50 years ago
And must always hold protected status. It has been shown many times over that it cannot add sufficient oil to justify ruining it and exposing its delicate animal /plant habitat
To destruction.

We American citizens are watching and will continue do so, as do the Inuit and other indigenous tribes. Please help preserve it for our grandchildren. Do not approve oil
Leases.

Thank You, Floris Mikkelsen & Sally Buckley
