To Whom it May Concern,

The Arctic Coastal Plain is not to be degraded and polluted by any "oil & gas" companies. This leasing of this "Heart of the Wildlife Refuge" is NOT in this countries, nor its citizen's best interests. It is a political favor to lobbyists & corporations who have given campaign contributions to Republicans who are willing to sell off our National treasures to feather their nests.

As a citizen, I say No to Leases, Exploratory Gas or Oil drilling, Fracking on our public lands or in our seas.

This is too dangerous to be contemplated. It is totally unnecessary! Job creating, Alternative Energy, is the way forward.

Only Political Neanderthals like Pruitt & his ilk would consider this as an "appropriate suggestion".

I adamantly oppose this "leasing" of the Arctic National Wildlife Refuge. The name of the Refuge says it all! No! No! And Hell No!

Sincerely,
