I am writing to you today about the scoping for the EIS for drilling in the Arctic National Wildlife Refuge. This area is hugely important for the wildlife that call this area home and any drilling or associated exploration will be extremely detrimental to the lives of those animals.

Few places exist in the world today and all possible actions should be taken to ensure they are protected for current and future generations. The Arctic National Wildlife Refuge is one of our nation's most iconic wild areas, and it deserves our most enduring legal protections.

Thank you for your attention towards building a sustainable economy for the state of Alaska and our country that does not include drilling in this pristine area.

Sincerely,

Chip Nevins
