Like a majority of Americans, I oppose drilling in ANWR. There are already places set aside to drill that have not been tapped. The environmental consequences are too great in ANWR and the amount of oil obtained is predicted to be very low. Drilling doesn't make sense and most Americans oppose it in survey after survey. I have been to ANWR, it is a spectacular place- I see no need for the greedy oil companies to have it all at the expense of the people.
