To: blm\_ak\_coastalplain\_EIS@blm.gov

I want to add my voice to those who have determined, and strongly maintain, that there are no justifiable reasons why we must drill for oil in The Arctic Refuge and huge risks. I may never see it, but I want to know it's there—protected as the majority of our nation's citizens want, and have expressed to our leaders. It was with short-sighted and mean-spirited greed that protection for this treasure was circumvented. I would beseech the Trump administration to, for once, throw its weight behind an issue that truly benefits the masses—in this country and the entire world. Take drilling for oil in the Arctic Refuge off the table FOREVER!

Thank You,  
Peggy O'Farrell
