Dear Interior Department

The Arctic National Wildlife Refuge, is home to thousands of species and millions of individuals, thus making it one of the most important ecosystems in the world. Therefore, it is also paramount that we protect it now, meaning prevent drilling for oil and gas. Because, such drilling greatly disturbs the natural balance in the environment, and among its inhabitants. I now urge you to protect this invaluable heaven and stop the ruthless infringing by the heartless oil and gas companies. Because the richness of the Arctic National Wildlife Refuge is worth far more than money.

Sincerely

Alicia
