I do not support drilling in the last true wilderness of the United States. Do not allow drilling in ANWR. We do not need the oil, nor do we need the destruction drilling will cause to the ecosystems of this wilderness area.

I strongly oppose Senator Lisa Murkowski's push to open this fragile area to exploitation. It needs protection from humankind's destructive commercial short sighted plans.

Please consider our voices on behalf of this beautiful, needed land.

Stephanie Bender, MA, LMHC
