Dear BLM

We are writing to implore you not to allow drilling on one of the last protected areas in our country, the Arctic Refuge. We know that the infrastructure, roads, etc. will cause irrevocable damage to one of the most sensitive areas on our planet. This isn't just our opinion, but the opinion of the US Fish and Wildlife Service after a multiyear review.

The Trump administration apparently has a goal to put money into the hands of big industry, to include oil and gas. And apparently what happens to the environment is not of concern in any way.

Please add our voices the many that deplore the idea of drilling in the Arctic Refuge.

Sincerely,

Sally and Robert Baird
Bellingham, WA 98225
