To Whom it May Concern,

I am writing to lend my voice in opposition to oil development in the Coastal Plain of Alaska. The testimonies of many have touched my conscience. I need only to look at the impact of my own use of fossil fuels on the environment around me to realize our continued dependence on them will lead to our own demise.

The caribou, birds, Gwich'in people and countless flora, fauna and systems we do not yet understand matter too. We have yet to be able to demonstrate truly safe and environmentally benign development of oil resources? **Please, stop further development** in this area and help us turn our attention to healthier, more sustainable energy policies for everyone.

Thank you,

Sharon Baring
