Please protect this amazing place. There has to be other sources of income for the great state of Alaska. Tourism is such a big part of the economy in your state. Why risk this pristine area or any of the other areas that draw people to your part of the world. Don't let the select few ruin Alaska for everyone else. Look after your environment and the creatures that live in it.

Thanks. Two time visitors and planning to come back again to see the splendor of Alaska; not oil wells in the wilderness.
