To whom it may concern,

I have vacationed in Alaska, taking wilderness caravans to witness our last unmolested Land! If you turn Alaska into a oil and gas mine I will no longer be motivated to pay into Alaska's tourism industry. Your impact to Alaska will be detrimental to its tourism for people that appreciate its land and nature for its originality. Don't make Alaska look all like a mud pit!

It was made a National wildlife refuge for a reason! If the majority wanted it leave it be or the majority will force you out and put in place a person more relatable to our vision next election!

This is the single most destructive attack on the wilderness, wildlife, and subsistence resources of a national wildlife refuge in modern history.

The Administration is putting politics above protection of one of our most treasured public lands. Rushing into leasing is not what the Refuge deserves or what the law requires. The administration needs to comply with all the important legal protections that are in place to protect caribou, water, subsistence, and other sensitive resources of the Coastal Plain.
