Dear BLM Alaska,

Our current leadership is making "short sighted" or "short term" decisions to attempt to benefit our economy. The United States and the world would get a greater benefit by focusing on the future of energy which would be a greater benefit to our economy. We have developed a dependence on petroleum based fuels which must be re-focused on other more "cleaner" sources such as:

Solar Energy. ...

Wind Energy. ...

Geothermal Energy. ...

Hydrogen Energy. ...

Tidal Energy. ...

Wave Energy. ...

Hydroelectric Energy. ...

Biomass Energy.

We stand with the Gwich'in Nation in defense of the sacred coastal plain of the Arctic Refuge. By rushing to open this land to destructive oil drilling, the Trump administration is blatantly prioritizing profits over people, and disregarding tribal sovereignty for the sake of corporate greed.

The Arctic National Wildlife Refuge is one of America's last truly wild places, and the coastal plain is its biological heart -- home to the largest array of wildlife in the circumpolar north. Oil drilling would permanently destroy this sacred place.

Protecting the Refuge is also a matter of human rights for Alaska Native tribes like the Gwich'in, who consider the Refuge sacred and rely on the Porcupine Caribou herd for over 80% of their diet. Oil exploration would impact the birth rates and migration patterns of the caribou, which would threaten the tribe's food sources and way of life.

Allowing drilling in the Arctic Refuge would also worsen climate pollution, harming communities already bearing the brunt of the changing climate as they are forced to adapt to rising seas, melting ice, and changing migration patterns.

The Arctic Refuge is a symbol of what we want for our future -- the preservation of a way of life, climate justice and wild places for future generations. I urge you to protect it from drilling at all costs.

Sincerely,

Lance Pecchia
