Hello. My name is Rich, and I am an avid hiker and backpacker; I'm also a human being who lives on earth.

It is in both of those capacities, that I would like to, in the STRONGEST POSSIBLE TERMS, ask, beg, plead and demand that you not allow ANY more arctic land to be leased for drilling. Fossil fuels are ruining our planet. Please please preserve these beautiful places; allow the animals and plants and native human residents to have their living space. We don't need anymore oil. We need alternative energy sources, not just the continues insane idiocy that's destroying our home.

This is not an Alaskan issue.

This is not am American issue.

This is not a political issue, no matter how politicized it becomes.

It is a human issue, and a planetary one. This is the air we breathe, the water we drink and the land we walk on. Please don't let them poison us, and the earth, any more!!!! Please!!!!
